ROBERTSON SETS NEW MARK AT CROWN POINT

LOCOMOBILE TURNS COURSE IN
PRACTICE IN 23:10.

MARION CAR IN ACCIDENT

CROWN POINT, Ind., June 17.—Rob-
ertson, in his Locomobile took another
trial at the "S" curve today, again beat-
ing all previous records. He dodged sev-
eral truck wagons and yet made the lap,
according to an ordinary watch, in 23:10.
That was the average at least. One man
caught him in 23:20 and another in 24:20.
Several watches gave Lytic, in an Ap-
person, credit for 24 minutes. There were
few watches, however, as presumably
there was to be no practice, the ban hav-
ing been placed on it in order to allow
the work on the rough stretch of the
west leg.

Strang, in a light Buick, wandered over
the route mainly for the purpose of not-
ing any changes made by the roadbed re-
pairers.

Colonel Sanborn preceded his main com-
mand, appearing khaki clad and goggle-
eyed in an automobile at the head of an
advance detail of fifty men of his regi-
ment. The men perched themselves on
great stacks of tents borne by auto
trucks and proceeded to their camping
site near the grandstand. When the
regiment proper, under Lieutenant-Colonel
Eddy, marches out to the scene tonight
it will find the main tents already pitched.
The men themselves will sleep in the
shelter tents which each man carries.

Cars Are Weighed.

The thirty cars which will strive for
victory in the races were weighed today
and all were found of the proper weight.
A report had gained much currency con-
necting the complaints made by some
farmers as to the monopolizing of the
roads by the racers, and the alleged dis-
appearance of magistrates. The report
has it that the justices are all absent,
hence no papers tending to interfere with
the races can be issued.

It is extremely doubtful if such papers
would be made out in any event, but the
fact remains that George Fisher, deputy

Cars Are Weighed.

The thirty cars which will strive for victory in the races were weighed today and all were found of the proper weight. A report had gained much currency connecting the complaints made by some farmers as to the monopolizing of the roads by the racers, and the alleged disappearance of magistrates. The report has it that the justices are all absent, hence no papers tending to interfere with the races can be issued.

It is extremely doubtful if such papers would be made out in any event, but the fact remains that George Fisher, deputy clerk of the Lake circuit court, and a magistrate as well, and H. B. Nicholson, justice of the peace, were pursuing their ordinary vocations in Crown Point today.

Decorations sprung up in the streets of Crown Point and Lowell like magic today. Flags of every color were strung on strands across the streets and buildings were bedecked. Country folk in every description of vehicle plodded into the cities or took their allotted places in various parking grounds, which occupy nearly all of the space on both sides of the long course.

Indianapolis Car in Accident.

Late yesterday afternoon two Marion cars, of Indianapolis, one driven by Charles Stutz and the other by A. Monson, tore through Crown Point at something like sixty or seventy miles an hour. Their machines were almost hood to hood when they thundered into the S shaped curve. As they dashed into the last turn Stutz was blinded by the dust raised by Monson's car and failed to negotiate the turn properly. The rear axle of the machine was twisted and the car tipped, throwing Ray Tinkler, the mechanic, out upon the grass beside the road. They were able to run the car to the garage and announced that a new axle would be installed in time for the race.

The results of yesterday's trials were:

Strang Makes Fastest Mile.

The fastest time over a measured mile was made by Strang in one of the Indiana trophy Buicks, which was sent down the stretch leading to the finish at seventy and four-fifth miles an hour.

As on Tuesday, the guards, equipped with red and yellow flags, took their stations promptly at 2 o'clock and diverted all traffic into the cross roads. At 2:14:30, Al Poole, at the wheel of the No. 17 Chalmers-Detroit Indiana trophy candidate, shot into sight from the south and crossed the line with a good flying start. Thirty seconds later Phil Wells followed

At 2:14:30, Al Pool, at the wheel of the No. 11 Chalmers-Detroit Indiana trophy candidate, shot into sight from the south and crossed the line with a good flying start. Thirty seconds later Phil Wells followed in the Indiana trophy Moon, while Hearne, in the big Fiat, plunged down the stretch three minutes afterward.

Then followed Miller in the Stoddard-Dayton No. 1, Wright in the Stoddard-Dayton No. 18, Matson in the Chalmers-Detroit No. 13, Burman in the Buick No. 2, and Monson in the Marion. All of the latter-named cars are entered in tomorrow's race.

Engelbeck, who soon was destined to lower the practice record, shot past the stand in the Stoddard-Dayton Cobe cup aspirant at 2:50. The big car was hitting up such a fast clip that the clockers prepared to record a new mark.

Twenty-three minutes and thirty seconds later the announcer with the field glasses caught the white figure 5 on the radiator of the flying car topping the southern rise. Englebeck had succeeded in passing those who had started before him.
