BIBLE LECTURES.

Rev. Vining Will Speak Every Tuesday Evening. Beginning tomorrow night the pastor of First Baptist church, Rev. B. V. Vining, will deliver a series of Bible lectures on each Tuesday night in the Auditorium of the First Baptist Church. He will deal with each book in the Bible. The wonderful dealings of God with his people is to be shown in its development as it appears in the various books of the Great Book. The lectures are to be delivered under the auspices of the Women of the First Baptist Church. The lectures are free and open to all the public. Not only the members of the First Baptist Church, but all are invited to hear these lectures.

MR. LEVINE HAS ASS'T MANAGER

New Man Will Help to Make Opera House First Class

In keeping with his policy of giving the people of Corsicana the best in moving pictures and anticipating their wants in the way of the larger attractions, such as Light operas, Musical comedies, and the best acts of vaudeville to be obtained, M. L. Levine has secured the services of a well known authority and experienced man, W. S. Turnpaugh, who will act in the capacity of assistant manager to Mr. Levine and also look after the electrical installations with which the new Opera House is to be equipped.

Mr. Turnpaugh assumes his new duties today and comes from Abilene where he has been connected with J. E. Hamlett's theatres for the past two years, and before that time was in the show business at Fort Worth and Wichita Falls. Having been in the business about twelve years he is in a position to know his business and will no doubt succeed in his new place here. In giving to the patrons of Mr. Levine's theatre, the best that can be had in the movie game.

Mr. Turnpaugh is one of the few managers who is also an expert in the knowledge of the details of projection machines and the electrical department of the show business, and from that source alone Mr. Levine's pictures and electrical effects on his operas will be put on in the very best way possible and in fact shows will be produced here in the same up to date manner that they are shown in the larger theatres in New York and the other Eastern cities.

For the time being Mr. Turnpaugh's duties will be mainly looking after the new theatre and seeing that all details that go to make a theatre a good one are incorporated in the New Opera House.

Mr. Levine is very modest in speaking of his good fortune in getting the services of a man who is so accomplished as Mr. Turnpaugh but wishes to assure the show-going public of the city that this step is only one of the many now in consideration, with but one end in view and that to give his patrons the best that the amusement fields afford in the way of high class, clean and novel entertainment.

When you want it hauled phone the Corsicana Dray & Transfer Co.

Stop coughing! you rack the lungs and worry the body. BALLARD'S HOREHOUND SYRUP checks irritation, heals the lungs and restores comfortable breathing. Price 25c, 50c and \$1.00 per bottle. Sold by E. A. Johnson.

FIRE ALARM THIS AFTERNOON.

Only Slight Damage Was Done To A Barn.

The department was called to the home of Sol Gottlieb on West Second Avenue, between North Thirteenth and North Fourteenth streets, at 2:35 this afternoon. In some unknown way fire had started in the barn, but the flames were extinguished after about \$20 damage had been done.

E. E. Cherry, W. M. Scarborough and J. W. Simmons were here today from Kerens.

Mrs. Rowland Martin arrived from Dallas today for a few days visit.

READY FOR BUSINESS AS USUAL

We are nicely fitted up and ready for business in the New Sun Building. We will care for your insurance wants as usual.

W. BURGESS & CO.
Insurance Specialists Since 1901.

A COLUMN OF POETRY.

All of us know Blanding Sloan, a native of Corsicana. He is now making his home in Chicago, where he is attracting attention as an artist. He has also developed talent as a poet. Mrs. Sloan has received several of Blanding's poems and handed them to the Sun. They follow:

MY FRIENDS, MY FRIEND.

My friend was like a new found book. We turn the leaves and read it once for pleasure To the end.

But turning back among the pages Find there nothing more than we had seen the first time; Unless it be a misprint and a broken type or so.

We turn it over to some one else to read, Remembering it only by its title and highly colored binding— Ordinary novel.

WONDER BEAUTY.

There is a beauty Of a sort worth knowing Among the breakers,

On the reefs and shoals, In the shallows,

Near the temporary landings; But sailing to a fulfillment On the richness

Of the deep calm sea Is incomparable to it.

TOOL.

I know a man Who's like a silver carving knife. Harmless, quiet; when used correctly. But if another wants a tool To butcher still another;

He grasps its ready handle, To plunge it in the latter's back. And leave it sticking in the bloody wound;

To rust and rot.

STARS.

I saw a star come out The night that you were born.

At your first cry There flashed out from the blue The door through which

Your soul had come To greet its tender body.

'Twill guard you well Until its close

On your return into the Morrow. My star is ebbing quickly For I am old

And growing dim.

SAND.

Life is sprinkled well with sand Of those most precious thoughts

Which he has let escape From out the blue.

My hand is wondrous full Of those which she Has wafted into it.

But They are slipping through my fingers. I cannot hold them all, Alas,

I cannot hold them all.

OUR LOVE IS A ROUND BLUE BUBBLE.

Our love Is a round Blue Bubble

Filled with Heaven's dew; Kissed from the tip Of angels lip—

Sent down to me and you.

Our love Is a round Blue Bubble

Drifting out to sea; In a silver nest Atop the crest

Of wave of you and me.

Our love Is a round Blue Bubble

Clear and round and true. Mayhap a day you'll stray 'Twill sail astray

To rush back still more blue.

I SAW THE HIGH LIGHTS ON THE FOAM

The lake was black. I could not see more of it Than I can the whole of life.

Where the rush of the waves Was strong enough I saw the high lights on the foam.

As they broke upon the beach, To disappear beneath those Coming up behind them.

I believe that they flow out Into the center of the lake again, To disperse and mingle with The countless others scattered there.

Perhaps we'll see the same waves, When we walk along the shore together, A thousand years from now.

MOTHER MOON.

One of your nearest babies Was playfully twinkling

On the lap of its blue sky nurse Until I whispered to it That you had gone away.

It shivered as if cold And hid its face Behind its nurse's vapor apron.

I'm sure the earth 'Twill have its face washed soon, Unless you come And kiss its gathering tears away.

Cotton Receipts To Date.

Cotton has been weighed here to date as follows:

Warehouse 8715

Moore's 3668

Total 14,003

Prices today 28 to 27.

Cotton Seed 475 per ton.

SPEED KING IN CORSICANA

Joe Dawson, a Famous Automobile Driver, Here Today

Joe Dawson, famous as the world's fastest automobile driver, accompanied by Mr. Chas. M. Ransom of Dallas, drove down to Corsicana today in Mr. Dawson's Chalmers 24-hour record automobile. This car, which has been on exhibition for several hours in the city, is the original car driven by Mr. Dawson at Sheepshead Bay last August when he broke the world's record for stock cars. Just recently Mr. Dawson broke the cross-country record by driving a regular four-passenger stock Chalmers automobile from San Antonio to Dallas on October 22d in 6 hours, 55 minutes and 40 seconds, and on November 1st, he made a record in the same car from Galveston to Dallas in 8 hours and 30 minutes. The car these endurance records were made with is the same as are now in stock by the Corsicana Garage, distributors for this well known car for Navarro county. The following records made by this same car will be interesting reading:

The Chalmers now holds the coveted 24-hour endurance record.

This supreme achievement in motor car endurance was attained when Joe Dawson drove a Chalmers Speedster equipped with an absolutely stock motor 1898 miles in 24 hours over the Sheepshead Bay Speedway on August 1-2.

This marvelous performance was accomplished without a motor stop or mechanical trouble of any kind.

This great test which gave the crown for endurance to the Chalmers was made under the official sanction and auspices of the American Automobile Association.

This is the fastest time ever made by a motor for such a distance. The fastest world's locomotive records are dimmed by comparison with this dazzling exhibition of Chalmers speed and stability.

In addition to the 24-hour endurance record, the Chalmers simultaneously broke the One Hundred Mile, the Hour and the Twelve-Hour records.

May 4th, 1917, a Chalmers established a new time for the 230 cubic inch class at Atlantic Beach, Jacksonville, Florida. Joe Dawson made a mile in 38.10 seconds, making a speed of 94.2 miles per hour. This is 2.2 seconds faster than the record made with a National motor in the 450 cubic inch class and it is within less than 3 seconds of the Hudson Super-Six record made with a motor nearly 25 per cent larger.

On May 4th, 1917, a Chalmers Sedan in Boston, under American Automobile Association observation, established a new traffic performance. Twenty-four hours without a motor stop, on high gear, averaging 14.4 miles per hour. To keep within the speed limits, the Chalmers Sedan ran 246.2 miles, seventy-five per cent of the time through Boston's densest traffic. 350 stops were necessary, of which 188 were full stops and 162 were slow-downs required by traffic. Despite the number of stops and the fact that high gear only was used, this Chalmers Sedan average 11.9 miles per gallon.

On Wednesday, April 18th, in Detroit, a Chalmers Touring Car established the lowest traffic mileage under the observation of the American Automobile Association. For 24 hours this Chalmers ran through Detroit traffic at an average speed of only 2.9 miles per hour on high gear. The total mileage was 71.7. High gear only was used. No gas, no oil, no water were added.

On March 27th, in Chicago, under the observation of the American Automobile Association, a Chalmers Touring Car ran the highest number of miles in 24 hours through traffic. Here the motor ran 24 hours without a stop. The course was through Chicago's congested loop district. First and second gears were entirely removed. The gasoline average was 14 miles per gallon.

Equally impressive traffic tests were recently made at Minneapolis, Minn.; Columbus, Ohio, and Montreal, P. Q., Canada.

Numerous hill climbs have been won by the Chalmers. A Chalmers Special headed it class in 1916 in the Pike's Peak climb and on these steep slopes of Bian's Despair.

We can fill your prescriptions written by any doctor. COULSON'S.

COLORED TEACHERS MEET.

County Institute of Colored Teachers Hold Session at Court House.

The County Institute of colored teachers met in the County Superintendent's office at the court house Monday morning at 10 o'clock. A. M. Luper was conductor. Forty-three teachers were enrolled.

The opening remarks by the conductor were full of thought and information. The following committees were appointed: T. L. Douglas, Reporter; Mrs. T. E. Lister, critic; Resolutions, L. E. Lister; Mrs. M. C. Nelson, Miss Pearl Griggs; Summer Normal, M. A. Traylor, J. G. Hopkins, R. M. Pearson, H. L. Washington, G. W. Jackson.

The new teachers were introduced and gave some helpful remarks.

Methods of teaching Primer and First Grade—Mrs. Pearl Griggs. Mrs. Griggs read a well prepared paper. The Institute took up the subject and helpful thoughts were brought out.

Methods of Teaching Spelling, First and Second Grades—Miss Dina Hopkins.

Letter Writing—Miss Birdie Clark. Miss Clark gave a splendid discussion on various kinds of letters.

The Lesson—The necessity of Planning was discussed by the Institute.

State Three Essentials of a Plan and the result of each—Charley Heron.

Dry Farming was Discussed by M. A. Traylor. He advised early and deep plowing.—Reporter.

ABLE TO BE UP

Will Ransom, who is at Camp Bowie Ft. Worth was able to be up for the first time yesterday since he sprained his ankle while playing football. Will is walking with a cane but says that he's as good as well now.

Chas. Haden was here today from the Grove.

Douglas Jackson, Charlie Bee, and John Garner were among those here yesterday from Camp Bowie, Fort Worth.

T. L. Swiak and V. E. Ponder were here today from Purdon.

Have You Bought Your Winter Coat?
