

The Auburn's Remarkable Run

After completing a run of two thousand miles through southern Indiana, an Auburn Touring Car returned to Indianapolis Friday, driven by R. E. Parker of the Auburn Automobile Company and W. W. Beesen of the Finch & Freeman Automobile Company. The appearance of the car gives some indication of the frightful road conditions overcome on the trip. Bottomless pits of mud, water over the hubs, snow drifts mountain high and

every other obstacle known to the winter tourist was present. Not a cylinder missing, not even the slightest derangement in the mechanism of this wonderful space annihilator. The pride of drivers in this magnificent performance of the Auburn reveals itself in their broad grins. Nine sales resulted from this "show me" run and others are expected. Finch & Freeman are agents for the Auburn in Indianapolis.

The Auburn's Remarkable Run

After completing a run of two thousand miles through southern Indiana, an Auburn Touring Car returned to Indianapolis Friday, driven by R. E. Parker of the Auburn Automobile Company and W. W. Beeson of the Finch & Freeman Automobile Company. The appearance of the car gives some indication of the frightful road conditions overcome on the trip. Bottomless pits of mud, water over the hubs, snow drifts mountain high and
