OVERLAND

Run-a-bout

A Winner!!

THE Overland Runabout won over everything in its class in the largest hill climbing contest ever held in Indianapolis.

It made much better time than many cars listed at a much higher price. We were not surprised; we knew what it would do.

We knew the Overland Car to be the Best Car Made for \$1250

Come around to our place and let us show you this car and take you out for a ride and you will also know it is the best.
