PICKS BALLOON OFFICERS

AERO CLUB MAKES PLANS

VAST ARRANGEMENTS FOR NATIONAL CLOUD RACE ARE DRAWING RAPIDLY TO SUCCESSFUL CLOSE, ACCORDING TO INDICATIONS.

BALLOON RACE OFFICIALS.

Contest Committee—A. Holland Forbes, J. C. McCoy, Charles M. Manly.
Special Assisting Committee—J. Parke Channing, Charles Jerome Edwards, Augustus Post, Jefferson De Mont Thompson.
Timekeeper and Starter — Charles J. Glidden.

Officers who will direct the events at the national balloon race to be held on the Indianapolis Motor Speedway June 5 have been appointed. Rules governing the cloud race have been agreed upon and are being distributed. Four thousand colored posters costing \$4,000 have been purchased and are being placed in the larger cities from Maine to California. The first race, the handicap, will start at 3 o'clock. The big race, which some contestants declare they will continue for seven days, will start at 4 o'clock. Other events will be provided on the automobile course to amuse the crowds before the balloons ascend.

The big gas bags are being received every day and taken to the fire and burglar proof house at the speedway grounds. The Columbia and the Kathleen, belonging to G. L. Bumbaugh; the Chicago, owned by C. E. Coey of Chicago, and the New York, belonging to A. Holland Forbes of New York, are at the speedway. Others are expected daily.

Distance Contest Attracts.

The second race is the one which attracts the most attention. This is a distance contest and the pilot of the winning balloon will be presented with a cup representing the American championship for the year. Every pilot starting

hopper type of fifty tons of makes 10,000 cars and ordered in the last sixty company.

Claude Hill, representing and P. N. Butzen, representing Leaf, and several other passengers were in the city yesterday. The outlook for increased favorable.

The car movement of the first fourteen days of this month 159 loaded cars, and that of including the Peoria & East an increase over the corresponding ten days last year of 22,014.

The new special fast train by a Southern railway to New York and Birmingham, fast schedule is arriving exact and much comment is made the fact, that is so much of improvement over the past service.

The Panhandle people are in a shape to care for perishable at any period in their history have just completed on Tuxedo plant for manufacturing ice in quantity they may desire, and will to handle perishable freight in approved manner.

The custom of dispatching telephone is spreading through the western states. The Big Four have dispatch its trains over the division by phone, and purposing the phone operations over the system as soon as the necessitation can be made.

The strike of the freight on the New York Central Railroad and all the old hands are at perintendent Harrington said that ninety-five out of the 120 went out on the strike had back at 16 cents an hour—the they had previously received.

R. W. Randolph, chief engineer of the Ohio River & Northern Railway, which has been financed by New York, Cleveland, Pittsburgh Liverpool capitalists, has just engaged to construct 100 miles of road in China and he will leave country on Saturday of this week.

Most of the picnic grounds and resorts will open next week, and excursion business the coming indicated. Managers of the parks along the local railroads, public schools, Sunday schools, organizations have arranged for almost every day the present

The Erie is to enlarge its Cornell at a cost of \$250,000 employment to 300 more men, 1,000 men are now employed at the point, and this improvement of the plant the largest on the line. The shops are now running daily, but in a short time a

... Four thousand
 colored posters costing \$4,000 have been
 purchased and are being placed in the
 larger cities from Maine to California.

The first race, the handicap, will start
 at 3 o'clock. The big race, which some
 contestants declare they will continue
 for seven days, will start at 4 o'clock.
 Other events will be provided on the au-
 tomobile course to amuse the crowds be-
 fore the balloons ascend.

The big gas bags are being received
 every day and taken to the fire and
 burglar proof house at the speedway
 grounds. The Columbia and the Kath-
 leen, belonging to G. L. Bumbaugh; the
 Chicago, owned by C. E. Coey of Chicago,
 and the New York, belonging to A. Hol-
 land Forbes of New York, are at the
 speedway. Others are expected daily.

Distance Contest Attracts.

The second race is the one which at-
 tracts the most attention. This is a
 distance contest and the pilot of the win-
 ning balloon will be presented with a
 cup representing the American champion-
 ship for the year. Every pilot starting
 in the race will be presented with a
 silver medal and every aid with a bronze
 medal of the Aero Club of America.

A special cup has been offered by Carl
 G. Fisher to the pilot who stays in the
 air the longest. Each pilot in the race
 can enter for the Lahm cup by sending
 \$1 as entry fee to the Aero Club of
 America.

Only certified pilots of the Aero Club of
 America are eligible and each pilot is to
 have an aid with him. He can take any
 instruments he wishes. The capacity of
 each balloon is limited to 2,200 cubic
 meters with a 5 per cent allowance for
 error. The gas and sand will be furnished
 by the Aero Club of Indiana gratis. Each
 contestant will furnish his own ground
 cloth, sand bags and twelve meters of
 hose pipe for filling.

Water Landing Disqualifies.

Each contestant will furnish the con-
 test committee with such data as is asked
 for as to place of landing, witnesses,
 time, etc.

It is understood that a landing is made
 where the balloon basket first touches
 the ground. If a balloon lands in the
 water the pilot is disqualified and the
 balloon is out of the race. Each con-
 testant agrees to observe the rules of the
 International Aeronautical Federation.
 Each contestant will have a motor car
 and driver at his disposal while in Indian-
 apolis.

The Hotel Claypool will be the official
 headquarters for the Aero Club of
 America and affiliated clubs.
