FISHER.

BUMBAUGH.

Two of the balloons that sailed away from Indianapolis in the national balloon race Friday have given up the race and of the aeronauts heard from Carl Fisher and Capt. G. L. Bumbaugh have reached a point the greatest distance from the Speedway where the ascensions were made.

The balloon Cleveland dropped out of the contest Saturday evening, coming down in the country eight miles west of Columbus about 8 o'clock, and the University City, with John Berry and Paul McCullough, gave up the race, descending last night.

The Indianapolis and the Chicago, the balloons entered with the Ohio in the

ckers" and baseball score boards occupy a position just opposite the bar in Indianapolis saloons must of them have gone. The tickers more than a dozen saloons in the business section ceased its noisy clatter this morning. Mayor Bookwalter says they are found working this week. Operators of the saloons will be arrested for operating gambling houses. Announcement of the taboo which was made on the score boards and the instruments was made Saturday morning from the city offices or police stations. In some of the saloons, where fans are accustomed to sit in mahogany and wait anxiously for baseball returns, there was much excitement Saturday afternoon and a bare place on the wall and a small table told the tale. Inquiry for a reply like this: "Don't know—ask the cops."

Asch, at Central Station, quickly issued an order when asked regarding the matter. It stated:

"I instruct sergeants to make the rounds of the saloons and order that the score boards be removed immediately. Wherever these are found bet-pools on combinations to win is illegal. If found in any saloon after being given instructions to arrest the saloon keeper for gaming or keeping a gambling house. This will not be for a minute." The order is signed Mayor Bookwalter.

Bookwalter, when asked regarding the order, said he understood that the score boards were appearing in all the saloons in the business section.

's Gambling," Says Mayor.

"Gambling and that's all you can get out of it," said the mayor. "It's a petty, cheap gambling, and as I learned of it I sent an order to Central Station to have the boards re-

Mayor said further that the order applied to poolrooms and every similar place where a telegraph instrument is used to record early returns. The mayor said that the proceeds "to the extent of the pools and combinations" were probably a score of the saloons and others in pool-rooms. There was considerable grumbling on the part of saloon men and friends over the order.

"It has never been any gambling," said one saloon keeper. "That was kept just for the accommo-

ing last night.

The Indianapolis and the Chicago, the balloons entered with the Ohio in the handicap endurance race, landed yesterday. Dr. Goethe Link and R. J. Irvin, who sailed the Indianapolis to Westmoreland, Tenn., winning the handicap event.

A. H. Morgan and J. H. Wade who sailed in the Cleveland and Dr. W. H. Thompson who sailed in the Ohio, balloons made by A. Leo Stevens, are more than disappointed over the poor race their gas bags made. They are at loss to account for the leaks which prevented them from flying more than a few miles from Indianapolis and they believe the gas with which their balloons were inflated was of an inferior quality.

Fisher Sends a Message.

Fisher and Bumbaugh, who came down for water in Sumner County, Tennessee, sent a message to The Star at 5:15, saying they had sent down two buckets for water and that they had been carried by a slow southwest breeze. They hoped to hang on to it and after replenishing their water supply they ascended again. Later in the evening a balloon was reported as having been sighted at Ft. Payne, Ala., near the foot of Lookout Mountain. The balloon was about a mile high and the name on the bag could not be distinguished. The St. Louis III, with A. B. Lamber and H. E. Honeywell aboard, was reported as having been sighted near Nashville, Tenn., yesterday afternoon, but no further reports were received from it.

Nothing has been heard from the Hoosier, with Capt. T. S. Baldwin and Charles Walsh, since it was sighted near Cannelton, Ind., about 6 o'clock Sunday morning, and no reports have been received from the New York with A. Holland Forbes and Clifford B. Harmon. It was Forbes's plan to seek a high altitude at once and sail with the upper current. Until the balloon passed out of sight at Indianapolis he had not gained any great height.

Victory for Link and Irvin.

Dr. Goethe Link and R. J. Irvin, who won the Indiana endurance race, were in the air about twenty hours. The Chicago, with C. A. Coey and Jack Bennett, was second and Dr. H. W. Thompson and J. Blake with the Ohio third.

The American endurance record is forty-four hours, held by Alfred Le Blanc of France, who started in the international race from St. Louis, Oct. 21, 1907, for the Gordon Bennett Cup. The distance record is held by Oscar Erbsloeh of Germany, who sailed in the Pommern from St. Louis in the same race. He landed in

ere was considerable grum-
 the part of saloon men and fre-
 ver the order.
 has never been any gambling
 said one saloon keeper. "That
 kept just for the accommo-
 my customers, and I violated
 ificant fact, however, was re-
 all the boards stopped oper-
 orders. It remains to be seen,
 say, whether any will venture
 the order and "take a chance."
 n men are saying they never
 a city where the saloons were
 rts to report race and base-
 rs, while members of the sport-
 nity appear sympathetic. They
 the boards have been operat-
 ince the baseball season opened
 y they were not abolished be-
 or Bookwalter says if he had
 at he knows now about the
 y wouldn't have been operated
 and, furthermore, that he is
 order as soon as he learned of
 rs" and score boards.

MAN ARRESTED; WIFE CHILDREN FOUND DEAD

urns on Gas After Disgrace of
 an's Embezzlement Is
 Told Her.

UIS, Mo., June 6.—Twelve hours
 husband, John Glaessar, had
 from home by the police under
 of embezzlement. Mrs. Martha
 was found dead in bed by the
 bodies of her children, Arnette,
 years old, and John Jr., 5 years
 room was filled with gas and
 advance the theory that the
 after closing the windows and
 the room, turned on the gas,
 led their lives. All were in
 It is supposed the excite-
 wing the arrest of her husband
 Mrs. Glaessar's mind during
 night.
 ternoon Glaessar was released
 holdover and the cigar company
 used his arrest said there would
 secution, as Glaessar had been
 severely already. Glaessar was
 n for the cigar company and had
 ged with embezzling \$275. He
 34 years old. The coroner will
 nquest tomorrow.

AND CHILDREN DROWN

ives Way When Excursion Party
 Lands.

DRILEANE, La. June 6.—Four
 and two children and probably
 and were drowned tonight when

of France, who started in the interna-
 al race from St. Louis, Oct. 21, 1907, for
 the Gordon Bennett Cup. The distance
 record is held by Oscar Erbsloeh of Ger-
 many, who sailed in the Pommern from
 St. Louis in the same race. He landed in
 Asbury Park, N. J., having covered a dis-
 tance of 852 miles.

If the balloons now competing in the
 national race continue due south they
 will have to land near Pensacola, which
 is about 675 miles from Indianapolis, and
 they would have no chance of beating the
 record. If they should strike an air cur-
 rent that carries them southwest into
 Mexico they may set a new distance
 mark.

Coey Lands at Scottsville.

A message from Scottsville, Ky., says
 the balloon Chicago, with Coey and Ben-
 nett, landed at the Fair Grounds at that
 place at 9 o'clock yesterday morning. They
 made the landing without difficulty and
 the whole countryside turned out to see
 them. Coey and Bennett will leave
 Scottsville at 6:30 o'clock this morning
 for Indianapolis. Scottsville is 225 miles
 from Indianapolis.

Dr. Link and Irvin got eighteen miles
 beyond Scottsville with their balloon, the
 Indianapolis.

They landed at 11:15 a. m. yesterday at
 Westmoreland, Tenn., a village on the
 Scottsville branch of the L. & N. Rail-
 road. They report a fine trip and will
 leave for Indianapolis this morning. The
 Ohio, the other balloon in the handicap
 race, came down in Brown County early
 Saturday evening. Dr. W. H. Thompson
 and J. Blake, who sailed in the Ohio, re-
 turned to Indianapolis yesterday.

The balloon Hoosier, with Capt. T. S.
 Baldwin and Charles Walsh, was sighted
 near Cannelton at 5 o'clock yesterday
 morning, but no reports have been re-
 ceived from it since then.

A message from Fayetteville, Lincoln
 County, Tennessee, says the balloon Uni-
 versity City, with John Berry and John
 McCullough, landed at Blanche, that
 county, at 7 o'clock last night. The aéro-
 nauts are the guests of D. W. Saunders
 and will start by rail on their return trip.
 Fayetteville is 325 miles from Indianapolis.

A message from Fort Payne, Ala., at
 the foot of Lookout Mountain, says a bal-
 loon, thought to be one of the nine started
 from Indianapolis at 3 o'clock p. m. Sat-
 urday, passed over that place at 5 p. m.
 The basket contained two passengers.
 The balloon was moving southeast and
 was at an altitude of approximately one
 mile. Ft. Payne is 415 miles from In-
 dianapolis and is near the Georgia state
 line.

No word has been received from the

 loon Ohio, with only four bags of sand
 sighted in Brown County they had an

WOMAN FOUND DEAD

Woman on Gas After Disgrace of Man's Embezzlement Is Told Her.

ST. LOUIS, Mo., June 6.—Twelve hours after her husband, John Glaessner, had been taken from home by the police under charges of embezzlement, Mrs. Martha Glaessner was found dead in bed by the bodies of her children, Arnette, 10 years old, and John Jr., 5 years old. The room was filled with gas and it is supposed the excitement of the arrest of her husband and the thought of her husband's disgrace led to her death.

Mrs. Glaessner was released from the hospital and the cigar company which had been arrested there would not prosecute, as Glaessner had been found guilty already. Glaessner was charged with embezzling \$175. He is 44 years old. The coroner will hold an inquest tomorrow.

AND CHILDREN DROWN

How Way When Excursion Party Landed.

NEW ORLEANS, La., June 6.—Four children and two adults and probably were drowned tonight when an excursion party from St. Louis, La., on the way to Lake Pontchartrain, was wrecked. The party was on a small boat and was carrying a large amount of baggage. The boat was carrying a large amount of baggage and was carrying a large amount of baggage.

BY MOUNTAIN PLANE

ST. LOUIS, Mo., June 6.—A party of four, consisting of two adults and two children, were taken from St. Louis, Mo., to Fayetteville, Ark., by a small plane. The plane was carrying a large amount of baggage and was carrying a large amount of baggage.

Indianapolis. They landed at 11:15 a. m. yesterday at Westmoreland, Tenn., a village on the Scottsville branch of the L. & N. Railroad. They report a fine trip and will leave for Indianapolis this morning. The Ohio, the other balloon in the handicap race, came down in Brown County early Saturday evening. Dr. W. H. Thompson and J. Blake, who sailed in the Ohio, returned to Indianapolis yesterday.

The balloon Hoosier, with Capt. T. S. Baldwin and Charles Walsh, was sighted near Cannelton at 5 o'clock yesterday morning, but no reports have been received from it since then. A message from Fayetteville, Lincoln County, Tennessee, says the balloon University City, with John Berry and John McCullough, landed at Blanche, that county, at 7 o'clock last night. The aeronauts are the guests of D. W. Saunders and will start by rail on their return trip. Fayetteville is 325 miles from Indianapolis. A message from Fort Payne, Ala., at the foot of Lookout Mountain, says a balloon, thought to be one of the nine started from Indianapolis at 3 o'clock p. m. Saturday, passed over that place at 5 p. m. The basket contained two passengers. The balloon was moving southeast and was at an altitude of approximately one mile. Ft. Payne is 415 miles from Indianapolis and is near the Georgia state line.

No word has been received from the New York. Land in Brown County. When Dr. Thompson and J. Blake, who started in the race in the balloon Ohio, with only four bags of coal, landed in Brown County they had an exciting experience. They had been flying over the heavily timbered hills and could find no safe place for a landing. They had no fuel left and were out of coal. They had to land in a field and had to get out of the field as fast as they could. They had to get out of the field as fast as they could. They had to get out of the field as fast as they could.

ST. LOUIS, Mo., June 6.—A party of four, consisting of two adults and two children, were taken from St. Louis, Mo., to Fayetteville, Ark., by a small plane. The plane was carrying a large amount of baggage and was carrying a large amount of baggage. ST. Land in Brown County.

When Dr. Thompson and J. Blake,
who started in the race in the bal-
loon Ohio, with only four bags of sand,
alighted in Brown County they had an
amusing experience. They had been sail-
ing over the heavily timbered hills and
could find no safe place for a landing.
They had no ballast left, as everything
had been thrown out to get them over the
trees and as they neared a clearing they
began to dump out their water bottles and
finally their well-stocked lunch basket
had to go.

Several men and two women were hoe-
ing in a potato patch and as the balloon
passed over the heads the big lunch
basket began to fall. One of the men
looked up as the object whirled end over
end in its descent and he shouted a warn-
ing to his companions. Evidently they be-
lieved it was a man. For a few minutes
they looked at the object in awe and then
they discovered what it was and they
hastened to feast on the aeronauts' lunch.

The balloon was anchored a short dis-
tance away and the aeronauts were taken
to Nashville where they spent the night.

A. H. Morgan and J. H. W. who got
on before them Columbus, Ind., in the
national race, returned to Indianapolis last
night. They were pretty disappointed with

Two Balloons Out of National Race

CONCLUDED FROM PAGE ONE.

the showing made by the Cleveland and spent considerable time last night in discussing the race with A. Leo Stevens, who made the balloon.

They assert that the balloon began leaking soon after they started on their flight and they saw within a short time that it would be impossible to cover any great distance. About 8 o'clock Saturday evening they made a landing eight miles west of Columbus. They remained in the country all night and were driven to Columbus yesterday, returning to Indianapolis last night.

Stevens, who was formerly connected with the United States Signal Corps and conducted balloon experiments for the government, built both the Ohio and the Cleveland.

The balloon Cleveland is the one in which Augustus Post and Allan R. Hawley came from St. Louis to Indianapolis some time ago, and the Ohio on its maiden trip, when it was christened, carried five passengers, eight grips, a trunk and sixteen bags of sand for more than 100 miles.

Stevens attributes the showing of these balloons to the quality of gas that was used and to the fact that they were the last balloons inflated at the speedway.

The gas company, he says, was not able to furnish an adequate supply of gas from its holders and was forced to use gas fresh from the retorts before all the balloons were filled. The first balloons filled, he says, got the best quality of gas the company could furnish, while he believes that ordinary illuminating gas was used in the last balloons filled. Then the fact that the gas was fresh from the retorts, he says, caused a contraction after the gas bags were in the air and the gas cooled and greatly reduced their lifting power.

He says the fact that the Ohio carried only four bags of ballast when it started in the handicap event and the Cleveland only twenty-one bags shows that something was the matter with the balloons or the gas. The balloons were examined carefully with a magnifying glass before they started in the race he says, but he could discover no leaks and he is at a loss to explain the leakage which put the Ohio and the Cleveland out of the running early in the race.

Messages From Balloons.

The following messages giving information about the balloons in the flight have been received by The Star:

NASHVILLE, Tenn., June 6.—At 9:30 a. m. word was received from Scottsville, Ky., that two large balloons were seen passing over that town. A few minutes later he stated that one was descending and would land about a half mile from that station. This proved to be the ship Chicago, with Charles A. Coey and one assistant on board. The landing was successful at about 1:30 p. m.

Westmoreland, Tenn., reported that the balloon Indianapolis landed there safely with Dr. Link and R. J. Irvin on board.

At 3 p. m. Fayetteville, Tenn., reported that a big gas bag passed over that town at 2:20 p. m., going southwest.

GLASGOW, Ky., June 6.—Two of the balloons liberated at Indianapolis passed here this morning, one at 5 o'clock and the other at 9:30. N. J. could be made out on the last one, but whether it carried passengers or not could not be told. They were so high they resembled toy balloons and were drifting rapidly due south.

NASHVILLE, Tenn., June 6.—Two of the nine balloons entered in the national distance race for the trophy of the Aero Club of America and the cup of the Indiana Aero Club, which left Indianapolis yesterday afternoon, were sighted above Shelbyville, Tenn., about fifty miles south by east of here, at 1:30 and 3:30 o'clock, respectively, this afternoon. What was believed to be another balloon was seen later, but the last one was very indistinct in the distance.

BALLOONS EXCITE THE SOUTH.

Whole State of Tennessee Turns Out to Gaze for Sky Flyers.

NASHVILLE, Tenn., June 6.—Several of the balloons entered in the long-distance race were sighted at a number of towns of Tennessee in the vicinity of Nashville this afternoon. Among the points which caught glimpses of the balloons were Shelbyville, Goodlettsville, Shackle Island, Westmoreland, in Sumner County; Blanchester, in Lincoln County; Hartshille, Murfreesboro, Milton and Scottsville, Ky. The Chicago landed at Scottsville this morning. The Indiana cast anchor at Shackle Island, while the University City landed at Blanche, in Lincoln County, during the afternoon. The Indiana was the only one of the number making the landing in the vicinity of Nashville, which proceeded on its

TO BE SENT FROM COMMITTEE

MEASURES GOVERNING SPEED LIMITS OF TRAINS AND DROPPING OF OIL BY AUTOS MAY BE ACTED UPON BY COUNCIL.

Two ordinances will be reported out of committee at tonight's meeting of the City Council and one will be introduced unless indications fail. The Railroad Commission ordinance to divide the city into three districts in which the speed of trains shall be, respectively, twelve, twenty-five and forty miles an hour probably will be introduced and referred to the Railroad Committee for consideration.

The Bonfield ordinance, to prevent owners of automobiles or other machines propelled vehicles from spattering upon the city streets, and the ordinance of Councilman Hamlet, to compel the Monon and the Lake Erie & Western Railroads to erect crossing gates at Twentieth, Twenty-second, Twenty-third and Twenty-fourth streets, are expected to be reported out of committee.

Ordinance Follows Accident.

Councilman Hamlet, if he is able to be present, will try to have the ordinance placed on its passage. The measure is the direct result of the accident at the Twenty-fourth street crossing of the Monon Railroad some time ago, which resulted in the death of the father and the serious injury of the mother, of whom were in a carriage when struck by a fast train.

The Bonfield ordinance, in addition to the prevention of oil drips, would compel the rejection by all automobile owners and others of the use of the muffler cut off, which is declared responsible for explosive detonations frequently heard the wake of the buzz buggies. This ordinance may also be placed upon its passage.

SLEEPING BOY IS KILLED BY AN INTERURBAN CAR

Roy Bracken Dozes While Waiting Car at Baltimore Avenue and Is Victim of Wheels.

Roy Bracken, 17, New August

BALLOONS EXCITE THE SOUTH.

Whole State of Tennessee Turns Out to Gaze for Sky Flyers.

NASHVILLE, Tenn., June 6.—Several of the balloons entered in the long-distance race were sighted at a number of towns of Tennessee in the vicinity of Nashville this afternoon. Among the points which caught glimpses of the balloons were Shelbyville, Goodlettsville, Shackle Island, Westmoreland, in Sumner County; Blanchester, in Lincoln County; Hartshille, Murfreesboro, Milton and Scottsville, Ky. The Chicago landed at Scottsville this morning. The Indiana cast anchor at Shackle Island, while the University City landed at Blanche, in Lincoln County, during the afternoon. The Indiana was the only one of the number making the landing in the vicinity of Nashville, which proceeded on its way.

Two balloons were sighted above Shelbyville at 1:30 and 3:30 o'clock this afternoon. Another balloon was believed to have been seen later in the afternoon. All of the balloons were going due south. From one of the balloons an unsigned note was dropped. It read: "We are all well up here, how are you down there?"

About 1:30 o'clock this afternoon H. O. Todd of the Seventeenth Civil Service District of Rutherford County, and who resides about fifteen miles east of Murfreesboro, saw two balloons pass over his home going in a direction from northeast to southwest, one about forty-five minutes in advance of the other. Both were gliding along at a fair rate of speed. The Rev. Mr. Patton at Milton, sixteen miles northeast from Murfreesboro, said that he had examined the object with a pair of glasses, but at a distance of probably twelve or fifteen miles. The University, with John Berry and John McCullough, landed at Blanche, Lincoln County, at 7 o'clock this evening.

The Indiana landed at 6 o'clock this evening at Shackle Island, Sumner County. The occupants of the balloon stated that they were compelled to land on account of water. After remaining there for about twenty minutes ballast was thrown out and the balloon soared into the air. It sailed toward the southwest and was later seen passing over Goodlettsville.

The balloon Indianapolis, with Dr. Link and R. J. Irwin, came to earth this afternoon at 2 o'clock at Westmoreland.

The news of the balloon traveling over Tennessee soon spread all over this section of the state as the operators for the railroad companies passed the word along. When it was learned that messages were being dropped by some, all sorts of fakes were originated by persons who had no other way of spending the afternoon.

Twenty-fourth street crossing of the Marion Railroad some time ago, which resulted in the death of the father and the serious injury of the mother, of whom were in a carriage when struck by a fast train.

The Bonfield ordinance, in addition to the prevention of oil drips, would compel the rejection by all automobile owners and others of the use of the muffler cut off, which is declared responsible for the explosive detonations frequently heard the wake of the buzz buggies. This ordinance may also be placed upon its passage.

SLEEPING BOY IS KILLED BY AN INTERURBAN CAR

Roy Bracken Dozes While Waiting for Car at Baltimore Avenue and Is Victim of Wheels.

Roy Bracken, 17, New August Ind., received fatal injuries when he was struck by an inbound Indianapolis Union Traction car at the Baltimore avenue crossing about 1 o'clock yesterday morning. He was taken to St. Vincent Hospital in an unconscious condition and died there at 10:30 o'clock yesterday without giving any account of the accident. His skull was fractured.

Coroner Blackwell, after an investigation, said the lad probably sat down on the edge of the tracks and fell asleep while awaiting a car for New August. He thinks the boy left Indianapolis on the wrong train and got off at Baltimore avenue when the conductor informed him of the mistake.

The motorman says he did not see Bracken sitting on the end of a tie until it was too late. He told Coroner Blackwell the boy was evidently fast asleep and failed to hear the signals of warning. Relatives called at the coroner's office and will arrange to remove the body to New Augusta today. The deceased was employed by the Fairbanks-Morse Electric Manufacturing Company here, and is supposed to have been on his way home when the accident occurred.

SERMON AFFECTS PRISONERS

Formerly Unruly, They Pay Close Attention to Minister's Words.

Robert and James Baughman, postoffice robbers, surprised Sheriff Woessner yesterday afternoon when they paid close attention to a sermon which the Rev. F. S. Marshall of Grace Presbyterian Church delivered in the Marion County Jail. The minister drew lessons from the crucifixion of Christ and said He died
