## MESSAGE FROM THE INDIANA.

GALLATIN, Tenn., June 6.

To The Indianapolis Star:

SUMNER COUNTY, Tenn., at 5:10 p.  
m.—Out of water. Are sending down  
two buckets for water. We have a slow  
southwest breeze, which we may hang  
on to.

FISHER.

BUMBAUGH.

Two of the balloons that sailed away from Indianapolis in the national balloon race Friday have given up the race and of the aeronauts heard from Carl Fisher and Capt. G. L. Bumbaugh have reached a point the greatest distance from the Speedway where the ascensions were made.

The balloon Cleveland dropped out of the contest Saturday evening, coming down in the country eight miles west of Columbus about 8 o'clock, and the University City, with John Berry and Paul McCullough, gave up the race, descending last night.

The Indianapolis and the Chicago, the balloons entered with the Ohio in the

ckers" and baseball score boards  
by a position just opposite the  
h in Indianapolis saloons must  
of them have gone. The tick-  
ore than a dozen saloons in the  
section ceased its noisy clatter  
morning. Mayor Bookwalter says  
y are found working this week  
ctors of the saloons will be ar-  
r operating gambling houses.

ouncement of the taboo which  
ed on the score boards and the  
instruments was made Satur-  
r from the city offices or police  
ters. In some of the saloons,  
where fans are accustomed to  
mahogany and wait anxiously  
baseball returns, there was much  
tment Saturday afternoon and  
A bare place on the wall and a  
ed table told the tale. Inquiry  
a reply like this: "Don't know—  
om the 'cops.'"

Asch, at Central Station, quickly  
an order when asked regarding  
er. It stated:

e instruct sergeants to make the  
of the saloons and order that  
score boards be removed imme-  
Wherever these are found bet-  
pools on combinations to win is  
. If found in any saloon after  
given instruct officers to arrest  
n keeper for gaming or keeping  
ing house. This will not be  
for a minute." The order is  
Mayor Bookwalter."

Bookwalter, when asked regard-  
order, said he understood that  
e boards were appearing in al-  
the saloons in the business sec-

### 's Gambling," Says Mayor.

gambling and that's all you can  
t of it," said the mayor. "It's  
's petty, cheap gambling, and  
as I learned of it I sent an order  
Station to have the boards re-

ayor said further that the order  
poolrooms and every similar  
ere a telegraph instrument is  
ed to record early returns. The  
ay that the proceeds "to the  
rom the pools and combinations  
expense of the instrument and  
and leave a "nice little profit."  
were probably a score of the  
in saloons and others in pool-  
There was considerable grum-  
the part of saloon men and fre-  
over the order.

has never been any gambling  
said one saloon keeper. "That  
ag kept just for the accommo-

ing last night.

The Indianapolis and the Chicago, the  
balloons entered with the Ohio in the  
handicap endurance race, landed yester-  
day, Dr. Goethe Link and R. J. Irvin, who  
sailed the Indianapolis to Westmoreland,  
Tenn., winning the handicap event.

A. H. Morgan and J. H. Wade who sailed  
in the Cleveland and Dr. W. H. Thompson  
who sailed in the Ohio, balloons made by  
A. Leo Stevens, are more than disappoint-  
ed over the poor race their gas bags made.  
They are at loss to account for the leaks  
which prevented them from flying more  
than a few miles from Indianapolis and  
they believe the gas with which their bal-  
loons were inflated was of an inferior  
quality.

### Fisher Sends a Message.

Fisher and Bumbaugh, who came down  
for water in Sumner County, Tennessee,  
sent a message to The Star at 5:15, say-  
ing they had sent down two buckets for  
water and that they had been carried by  
a slow southwest breeze. They hoped to  
hang on to it and after replenishing their  
water supply they ascended again. Later  
in the evening a balloon was reported as  
having been sighted at Ft. Payne, Ala.,  
near the foot of Lookout Mountain. The  
balloon was about a mile high and the  
name on the bag could not be distin-  
guished. The St. Louis III, with A. B.  
Lamber and H. E. Honeywell aboard, was  
reported as having been sighted near  
Nashville, Tenn., yesterday afternoon, but  
no further reports were received from it.

Nothing has been heard from the  
Hoosier, with Capt. T. S. Baldwin and  
Charles Walsh, since it was sighted near  
Cannelton, Ind., about 6 o'clock Sunday  
morning, and no reports have been re-  
ceived from the New York with A. Hol-  
land Forbes and Clifford B. Harmon. It  
was Forbes's plan to seek a high altitude  
at once and sail with the upper current.  
Until the balloon passed out of sight at  
Indianapolis he had not gained any  
great height.

### Victory for Link and Irvin.

Dr. Goethe Link and R. J. Irvin, who  
won the Indiana endurance race, were in  
the air about twenty hours. The Chi-  
cago, with C. A. Coey and Jack Bennett,  
was second and Dr. H. W. Thompson and  
J. Blake with the Ohio third.

The American endurance record is  
forty-four hours, held by Alfred Le Blanc  
of France, who started in the internation-  
al race from St. Louis, Oct. 21, 1907, for  
the Gordon Bennett Cup. The distance  
record is held by Oscar Erbsloeh of Ger-  
many, who sailed in the Pommern from  
St. Louis in the same race. He landed in

ere was considerable grum-  
 the part of saloon men and fre-  
 ver the order.  
 has never been any gambling  
 said one saloon keeper. "That  
 kept just for the accommo-  
 my customers, and I violated  
 ificant fact, however, was re-  
 t all the boards stopped oper-  
 orders. It remains to be seen,  
 say, whether any will venture  
 the order and "take a chance."  
 n men are saying they never  
 a city where the saloons were  
 rted to report race and base-  
 rns, while members of the sport-  
 nity appear sympathetic. They  
 the boards have been operat-  
 rince the baseball season opened  
 y they were not abolished be-  
 or Bookwalter says if he had  
 at he knows now about the  
 y wouldn't have been operated  
 and, furthermore, that he is  
 rder as soon as he learned of  
 rrs" and score boards.

## WIFE CHILDREN FOUND DEAD

urns on Gas After Disgrace of  
 an's Embezzlement Is  
 Told Her.

IS, Mo., June 6.—Twelve hours  
 husband, John Glaessar, had  
 a from home by the police under  
 s of embezzlement. Mrs. Martha  
 was found dead in bed by the  
 e bodies of her children, Arnette,  
 ears old, and John Jr., 5 years  
 room was filled with gas and  
 advance the theory that the  
 after closing the windows and  
 the room, turned on the gas,  
 led their lives. All were in  
 . It is supposed the excite-  
 wing the arrest of her husband  
 Mrs. Glaessar's mind during  
 night.  
 ternoon Glaessar was released  
 holdover and the cigar company  
 eed his arrest said there would  
 ecession, as Glaessar had been  
 severely already. Glaessar was  
 n for the cigar company and had  
 ged with embezzling \$75. His  
 34 years old. The coroner will  
 nquest tomorrow.

## AND CHILDREN DROWN

ives Way When Excursion Party  
 Lands.

DRLEANS, La., July 6.—Four  
 and two children and probably  
 and were drowned tonight

of France, who started in the internati-  
 al race from St. Louis, Oct. 21, 1907, for  
 the Gordon Bennett Cup. The distance  
 record is held by Oscar Erbsloeh of Ger-  
 many, who sailed in the Pommern from  
 St. Louis in the same race. He landed in  
 Asbury Park, N. J., having covered a dis-  
 tance of 852 miles.

If the balloons now competing in the  
 national race continue due south they  
 will have to land near Pensacola, which  
 is about 675 miles from Indianapolis, and  
 they would have no chance of beating the  
 record. If they should strike an air cur-  
 rent that carries them southwest into  
 Mexico they may set a new distance  
 mark.

### Coey Lands at Scottsville.

A message from Scottsville, Ky., says  
 the balloon Chicago, with Coey and Ben-  
 nett, landed at the Fair Grounds at that  
 place at 9 o'clock yesterday morning. They  
 made the landing without difficulty and  
 the whole countryside turned out to see  
 them. Coey and Bennett will leave  
 Scottsville at 6:30 o'clock this morning  
 for Indianapolis. Scottsville is 225 miles  
 from Indianapolis.

Dr. Link and Irvin got eighteen miles  
 beyond Scottsville with their balloon, the  
 Indianapolis.

They landed at 11:15 a. m. yesterday at  
 Westmoreland, Tenn., a village on the  
 Scottsville branch of the L. & N. Rail-  
 road. They report a fine trip and will  
 leave for Indianapolis this morning. The  
 Ohio, the other balloon in the handicap  
 race, came down in Brown County early  
 Saturday evening. Dr. W. H. Thompson  
 and J. Blake, who sailed in the Ohio, re-  
 turned to Indianapolis yesterday.

The balloon Hoosier, with Capt. T. S.  
 Baldwin and Charles Walsh, was sighted  
 near Cannelton at 5 o'clock yesterday  
 morning, but no reports have been re-  
 ceived from it since then.

A message from Fayetteville, Lincoln  
 County, Tennessee, says the balloon Uni-  
 versity City, with John Berry and John  
 McCullough, landed at Blanche, that  
 county, at 7 o'clock last night. The aéro-  
 nauts are the guests of D. W. Saunders  
 and will start by rail on their return trip.  
 Fayetteville is 325 miles from Indianapolis.

A message from Fort Payne, Ala., at  
 the foot of Lookout Mountain, says a bal-  
 loon, thought to be one of the nine started  
 from Indianapolis at 3 o'clock p. m. Sat-  
 urday, passed over that place at 5 p. m.  
 The basket contained two passengers.  
 The balloon was moving southeast and  
 was at an altitude of approximately one  
 mile. Ft. Payne is 415 miles from In-  
 dianapolis and is near the Georgia state  
 line.

No word has been received from the  
 New York

### Land in Brown County.

When Dr. Thompson and J. Blake,  
 who sailed in the race in the bal-  
 loon Ohio, with only four bags of sand  
 sighted in Brown County they had an
