## CROWDS OUTGROW FA

FIVE TIMES AS MANY PEOPLE  
TO MOTOR SPEEDWAY  
BALLOONS START AS  
CIALS HAD EXPECT

Because those who arranged  
tional balloon races at the M  
way did not foresee that 4  
were going to attend the even

a part of that big crowd was  
criticise the transportation s  
crowd that visited the ground  
balloons were started was fi  
large as was expected five day

It was estimated that th  
special trains, averaging one  
twenty minutes during the aft  
ried about 15,000 people to t  
Three trains of sixteen coach  
kept busy plying between  
Station and the Speedway, and  
plaint was heard on account  
service.

The greatest number of  
were at the Traction and  
Station. The Ben-Hur tract  
had made preparations to han  
but no preparation had bee  
handle a crowd of such size.  
hourly traction car service,  
cars, with a capacity of 150  
each, were run over the line  
were not enough to take the  
as fast as the crowd thoug  
to be taken.

### Traffic Manager Spe

"I sent eight cars filled  
out of here in less than twelv  
said W. O. Woodward, traff  
of the road; "and I couldn't  
decrease in the size of the cr  
in the sheds. I think we must  
at least 7,000 people from  
the line, and about 1,000 car  
line from the west.

"All afternoon every othe  
line brought carload after  
the station, all of the passen  
and even crazy to get to th  
at once. The crowd was so  
what we expected that our  
not take them out of here f
