gator's head. It let go its hold and the
woman was removed from the cage. Her
injuries are not fatal.

BALLOON HOOSIER COMES DOWN NEAR LOUISVILLE

MAKES AN ALL-NIGHT TRIP FROM
DAYTON.

DROPS LOTS OF ITS BALLAST

LOUISVILLE, July 2 — The balloon
Hoosier, George L. Bumbaugh, pilot,
which left Dayton last night, crossed the
Ohio into Kentucky at 10:15 a. m. today.
Those in the car were dropping ballast.
The balloon landed one mile south of
Cherokee park, southeast of the city,
about 11 a. m.

The Hoosier passed directly over the
business district of the city, coming low
enough to make the name on the huge
bag discernible to the naked eye. Sev-
eral sacks of sand were emptied as the
residence section to the south was
reached. The balloon soon rose again
and continuing its journey was a mere
speck in the cloudless sky. It came down
about twenty minutes later.

During the passage of the balloon
across the city several persons, who had
not seen the big gas bag, telephoned the
newspaper offices notifying them of a
"very peculiar shower of sand and gravel
falling out here and covering everything."
