

# SALARIES OF POLIS PLAYERS

SEASON WILL BE  
THAN EVER.

AND INCREASES

A general cut in salaries will be higher than the one or two reductions of the players will be. Among the big increases. Among the big ones will contain bigger. Howley, third-baseman, older Cook. This trio is ripe to ignite the old season. Cook will be around the circuit if another Ty Cobb. If year like he did during of last season, he will be the league. His season but he did not find his the season was half awful time boosting his one of the best pinch A.

His contract calls for a \$10,000 salary. He was carried all last season. In the contract he made with the Boston Braves League club, from which he was released by President Watrous, it called for little use to the team. "I will not be better this season," says Egan. Now on the staff are: Eusebio, Marquard, Chenzault, Kellum, West. Kellum will be expected to land one or two more pitchers, and he says that they may get pitcher Buttons.

**MANY BUYERS IN THROG  
ATTENDING AUTO SHOW**

**SALES AT CHICAGO UNAFFECTED  
BY MONEY STRINGENCY.**

# OPTIMISM IS THE KEYNOTE

[Special to The Indianapolis News.]

CHICAGO, December 5.—Although the admission fee had been doubled there was a larger crowd at the seventh annual auto show in the Coliseum and First and Seventh armories, last night, than on any previous evening. More than 10,000 persons passed the doors. The press agent said it was a "classy" crowd.

It was not difficult to distinguish between the innocent bystanders and those who had gone to the show to select cars. The former gamboled about the exhibits, crawling in and out of cars, gathered white roses from the pretty girl in the white touring car, examined the glittering arrays of trophy cups, and exchanged badinage with the exhibitors. But the others—those with uncertain step and a dazed, wandering look in the eye—they were the husbands, fathers, uncles and grandparents who were trying to decide which one of twenty-four cylinder touring cars, each warranted the best in the market, they would buy for the loved ones at home.

**Many Sales Reported.**

A good many finally made up their minds and placed their orders, according to the reports turned in at the office. Inquiries at the larger exhibits produced the information that an average of from three to six cars a day is being sold. The exhibitors are not worrying much over the stringency in the money market. People simply must have automobiles nowadays, they say, and necessities are not

ASON WHY.

A good many finally made up their  
minds and placed their orders, according  
to the reports turned in at the office. In-  
quiries at the larger exhibits produced  
the information that an average of from  
three to six cars a day is being sold. The  
exhibitors are not worrying much over  
the stringency in the money market. Peo-  
ple simply must have automobiles now-  
days, they say, and necessities are not  
being affected by the financial flurry.

Six cylinder cars are being vigorously  
pushed into the notice of purchasers.  
Persons looking for four cylinder cars are  
shown the six cylinder motors, while it  
is demonstrated that the difference in the  
length of engine is only a few inches,  
and the difference in power is tremen-  
dous.

### A. M. C. M. A. Meets.

Optimism was the keynote at the meet-  
ing of the committee of management of  
the American Motor Car Manufacturers'  
Association at the New Southern Hotel at  
2 o'clock yesterday. Chairman Benjamin  
Briscoe presided. Others present: Treas-  
urer H. O. Smith, of the Premier Motor  
Manufacturing Company; R. E. Olds, Reo  
Motor Car Company; W. H. Van Dervoort,  
Moline Automobile Company; Charles E.  
Lewis, Jackson Automobile Company;  
Herbert H. Rice, Nordyke & Marmon  
Company; Charles E. Duryea and Leon  
Myron Bradley, assistant manager of the  
A. M. C. M. A.

Chairman Briscoe appointed a commit-  
tee consisting of H. O. Smith, of Indi-  
anapolis, chairman; R. E. Olds and  
Charles E. Lewis to attend the con-  
ference to-day of the American Auto-  
mobile Association, which will take action  
on track racing.

It was the consensus of opinion that  
the present tight money market was only  
temporary. They expressed unlimited  
confidence in this great country and be-  
lieve that the Federal Government will  
handle the situation creditably. They  
have the fullest faith in the ultimate out-  
come.

The members of the A. M. C. M. A.  
are assuming the optimistic attitude rela-  
tive to the industry in general and are  
placing large orders for steel and other  
parts. The orders received at the New  
York show and the present one at the  
Coliseum have instilled renewed confi-  
dence and for this reason the rush orders  
are being placed.

### Private Show of Indiana Cars.

"Our cars are winners. They have cer-  
tainly won for themselves a distinctive  
place in the estimation of the motoring  
public."

Charles W. Price, manager of the Fa-  
vorite Automobile Company, was evi-  
dently elated as he made this statement

### Private Show of Indiana Cars.

"Our cars are winners. They have certainly won for themselves a distinctive place in the estimation of the motoring public."

Charles W. Price, manager of the Favorite Automobile Company, was evidently elated as he made this statement concerning the Indianapolis autos he handles. The Favorite company is local distributor for the American Motor Car Sales Company, which handles the Overland, Marion and American cars. A private show is in progress at the Michigan-avenue salesrooms of the company, and Ward C. Favorite, the president of the Favorite company; W. J. Bowman and Mr. Price have had their hands full since the show opened.

"We have a large number of orders for immediate delivery," Mr. Price went on, "and patronage is well distributed among all three makes. One thing that has been particularly flattering are the numerous applications for agencies that have been pouring in on us. That Overland car we received from the factory this morning. It was sold days ago and we have sent rush orders to the factory for several more that have already been spoken for. But it would be a mistake to imagine that the Overland is overshadowing the other cars. That Marion 'six' is commanding attention from people interested in that type of car and the American has its clientele. I could not justly make a distinction. Our sales all round have far exceeded our expectations and we are satisfied."
