**CROWN POINT RESTS EASY**

[Special to The Indianapolis News.]

CROWN POINT, Ind., June 21.—Crown Point is resting easy today after the wildest and most weird experience in her history. The great automobile races are now history and the residents of this part of the state are heaving sighs of relief. There was a lot of fun connected with the big event of two days, but it was just a little too exciting to be healthful for the peace loving citizens of this community. The entire automobile world is talking about Louis Chevrolet, driver of the Buick and winner of the Cobe trophy Saturday, and he is universally pronounced the ideal race driver. He stuck to his task after being apparently hopelessly put out of the race long before the finish and later was enabled to win after the other contenders had met with accidents.

**Record of the Race.**

The following table shows the record of each car and order of finish:
