FAMOUS HOODOO NOW PURSUING DE PALMA

Follows Race Driver to Coast and Prevents Match With Barney Oldfield.

In spite of the fact that Ralph De Palma's "hoodoo" chased him all the way to Los Angeles, where his big 200-horse power "Mephistopheles" broke a piston for the second time and precluded the match with Oldfield's big car, De Palma made some remarkable performances and broke a number of world's records, demonstrating that he is still the premier track driver.

There has been considerable comment over the fact that, even when his big car broke down, De Palma, still game, challenged Oldfield to race the "Cyclone" or a ninety-horse power Fiat against Oldfield's 210-horse power racer. De Palma made this challenge in good faith, but Oldfield says he fit to decline for reasons of his own.

Oldfield, however, agreed to a match with Caleb Bragg, the amateur driver. This resulted in the surprise of the meet, when young Bragg beat Oldfield in two two-mile heats and proved that De Palma's challenge was no mere idle jest. In the meantime De Palma will repair "Mephistopheles" once more and force Oldfield into a match, probably at the Atlanta Speedway.

MAD DOG IN A BARROOM.

Savage Brute Is Finally Choked to Death by Pugilist.

ALLENTOWN, Pa., April 23.—After the Johnson-Overby boxing match a dog of boardyard breed, with a large admixture of English bull, created more excitement than all the pugilists combined.

The sports had repaired in great numbers to Tallman's Cafe to fight the battle over again when the dog appeared, foaming at the mouth.

While the men of muscle were afraid of no mere man, a ragged bulldog was more than they had bargained for, and they took to the tops of bar, chairs and tables, to the very last one, after the dog had bitten John M. Gorman on the leg.

CADETS MAY TOUR

Will Test Efficiency of Military Operation

CHICAGO, April 23.—Major Glidden, commander of the Northwestern military academy, enemy of Chicago, who takes a keen interest in the possibilities of the motor car in military operations, is making tentative arrangements to give his cadets a practical demonstration of these possibilities. He proposes to send three cars on the route of the Glidden tour to the contestants. Each of the cars would carry a rapid-fire gun and other military equipment.

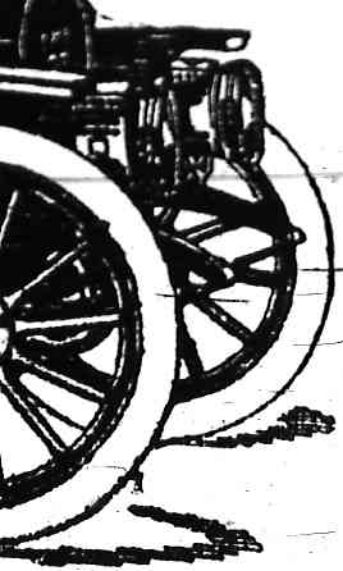

The military cars would not be for Glidden honors, but it is his idea to have his cadet crew test the Glidden regulations, and be subjected to military discipline. Maj. Glidden proposes that each car carry a driver, a mechanic and a camp out, regardless of where they stop in hotels.

MAXWELL WILL BL

Accepts Task of Mapping

NEW YORK, April 23.—Major Morgan of the Motor Company, under whose auspices the New Jersey Reliability Contest will be held on May 10 and 11, has accepted the task of mapping the course for the contest. The contest will be held on the New Jersey coast.

At first they had nothing but good-will and love. As he acquired property he turned it over to her and then he alleges her bad treatment began.

At various times, he says, she swore at him, once threw him downstairs, and made him the target for various household articles.

Finally, when he tried to collect his rents, he was told his wife had been there before him and ordered the tenants to pay him nothing. Hence his claim for alimony.

MAD DOG IN A BARROOM.

Savage Brute is Finally Choked to Death by Pugilist.

ALLENTOWN, Pa., April 23.—After the Johnson-Overby boxing match a dog of standard breed, with a large admixture of English bull, created more excitement than all the pugilists combined.

The sports had gathered in great numbers in Johnson's cafe to see the fight, and again when the dog appeared, bounding at the front.

When the ring of pugilists was closed all the time, a night building was more than they had to contend with, and they took to the legs of the crowd and fled to the very last one, after the dog had bitten John J. Johnson on the leg.
