CHAMPION MOTORCYCLIST HAS A NARROW ESCAPE

TIRE EXPLODES AND MANY
LIVES ARE JEOPARDIZED.

SPECTATORS IN BIG PANIC

PASSAIC, N. J., June 7.—Jake De Rosier, world's champion motorcyclist, after going 15-16 miles of a five-mile exhibition in record time at the Clifton stadium track yesterday afternoon, suffered an exploded rear tire, and, by cool-headedness and presence of mind, saved not only his own life but also the lives of the spectators in the first row of the grandstand.

When the tire exploded women screamed and fainted and men yelled with fright, for it looked as if De Rosier would ride right into the grandstand.

With great presence of mind the cyclist held firm to his handle bars, steered the machine down the incline and dropped off. For a distance of several feet the boards were ripped up and large splinters entered the champion's side. One seven inches long became entangled in his underclothing just below his heart, but did not even scratch him.

Before any one reached his side De Rosier stood up and said, "Everything is all right." He was found to be only slightly injured.

At the same spot last summer Sunny Briggs, of Boston, in an accident identically the same as yesterday's, lost control of his machine, rode against the grandstand and was instantly killed.

De Rosier made the first mile in 53 3-5 seconds, beating his own record by 2 3-5 seconds, and at the time of the accident
