## ANOTHER WOMAN DESIRES TO ENTER AUTO CONTESTS

John Newton Cuneo Expects Alice Potter  
to Be Determined to Compete  
With Men.

09

"I am greatly interested with Miss Alice Potter in her contesting for a national woman's tour," said Mr. John Newton Cuneo in talking of the probable action of the A. A. A. and the manufacturers' committee in closing out the women from the annual tour of the A. A. A. "Nothing can stop my making the route providing I care to do so," continued Mrs. Cuneo, "and although I had no real intentions of entering for the tour I may decide now to make the trip anyway, for I don't believe that experienced drivers such as Miss Potter and myself should ever be barred.

09

"Why, it is a fact that the trip this year is a grand one as a matter of course, and ladies without number intended to enter. Miss Potter, when she made that trip from Elgin, Ill. to New York and return in her Haynes car with none but ladies with her, certainly proved herself a grand driver, and I was really anxious to meet her in the tour this year and give her a run for the trophy. However, if Miss Potter and myself are to be banished from the ranks because it may be possible that we may secure a perfect score against the men, then it is time for us to go out and organize a national tour annually for ladies, and I am quite certain that Miss Potter will enter with her Haynes and that many other women drivers will enter also.

09

"We can make a tour and carry it through without the aid of the A. A. A., providing Chairman Hower and his associates want to be as discourteous as to shut us out of the contest owing to our ability shown in previous runs. I am rather surprised at that," said Hower, whom I have always considered highly both as a sportsman and a gentleman.

## ANOTHER WOMAN CHALLENGES TO ENTER AUTO CONTESTS

Miss Potter Challenges Contest With Her  
Haynes Car in Contestation to Compete  
With Men.

"To me, besides in connection with the  
auto contest in the contest for a na-  
tional women's tour," said Miss Potter  
today in talking of the probable action  
of the A. A. A. and the manufacturers' com-  
mittee in closing out the women from the  
annual tour of the A. A. A. "Nothing can  
stop me unless the committee says  
to do so," continued Mrs. Carter, "and al-  
though I had no real intention of entering  
for the tour I may desire now to make the  
trip anyway, for I don't believe that expe-  
rienced drivers such as Miss Potter and my-  
self should ever be barred."

"But, it is a fact that the trip this year  
is a grand one in a matter of course, and  
ladies without number intended to enter.  
Miss Potter, when she made that trip from  
Elgin, Ill., to New York and return in her  
Haynes car with none but ladies with her,  
certainly proved herself a grand driver, and  
I was really anxious to meet her in the tour  
this year and give her a run for the trophy.  
However, if Miss Potter and myself are to  
be banished from the ranks because it may  
be possible that we may secure a perfect  
score against the men, then it is time for us  
to go out and organize a national tour an-  
nually for ladies, and I am quite certain  
that Miss Potter will enter with her Haynes  
and that many other women drivers will en-  
ter also.

"We can make a tour and carry it through  
without the aid of the A. A. A., providing  
Chairman Hower and his associates want to  
be so discourteous as to shut us out of the  
contest owing to our ability shown in pre-  
vious runs. I am rather surprised at Chair-  
man Hower, whom I have always considered  
very highly both as a sportsman and a gen-  
tleman."
