AUTOISTS NOW PLAN FRENCH LICK DRIVE

Miniature Hoosier Glidden Tour
Likely Will Be Held About
May 20.

CLIMBING CONTESTS A PART

Local Speed Merchants Will Ne-
gotiate Grades Near Health
Resort.

No sooner have the echoes of automo-
bile show week died than clamorings for
another event begin. The French Lick
endurance run now occupies the atten-
tion of the devotees. The Indianapolis
Automobile Trade Association will meet
the early part of this week to plan for
this trip. An executive committee then
will be appointed.

Some changes in the rules governing
the event will be made from those which
were followed last year. Indications are
that twice as many cars will compete this
year. The run will be made about May
20. After the banquet at the Denison
Hotel Saturday night small groups of the
boosters gathered and talked over the
plans for this miniature Glidden tour. The
local auto factories will do their best to
make the event a success.

Plan Climbing Contests.

It is said the Michigan hill climbing
contests will not be held this year, but
that ascents up the French Lick hills
will be substituted. These will take
place at the same time the endurance runs
are in progress. Many local residents
will visit the spring resort in order to
witness the climbs. The hills there are

Plan Climbing Contests.

It is said the Michigan hill climbing contests will not be held this year, but that ascents up the French Lick hills will be substituted. These will take place at the same time the endurance runs are in progress. Many local residents will visit the spring resort in order to witness the climbs. The hills there are said to be better for such events. Auto parties probably will be enjoyed by enthusiasts during the contests, and the whole countryside around French Lick is expected to turn out for the carnival proceedings. It will be a gala day for the "smoke wagons."

J. W. Haynes of the Chalmers-Detroit Company will drive in the Glidden tour. He has driven in all of the Glidden tests and has a good record. He will drive, with Frank J. Fanning, in a Chalmers roadster.

Five members of the Chicago Automobile Club were in this city yesterday in the interests of the Cobe races to be held at Crownpoint, Ind., in June. Local autoists are showing considerable interest in this Hoosier track.

A Chalmers-Detroit car has been chosen as pathfinder for the Glidden tour side trip to Mexico City from Denver. Lee Counselman and Joe McDuffy will drive.

Mrs. W. H. Taft, wife of the President, has just ordered a blue Victoria Baker electric car.

B. W. Twyman departed last night for Detroit to "demand" more cars. He is snowed under with orders. He will also find out during this trip what model of E. M. F. car he will drive on the Glidden tour.

Oscar B. Henderson, an auto salesman, visited the Fisher garage yesterday. He is now connected with the Baker Electric Company. He was for several years sales manager of the Pope-Waverley Company. He said Indianapolis is an ideal city for electric machines and predicted a bright future for that make here.

The National Company denies reports to the effect that it has joined in an automobile trust. Officials say they know nothing of the rumors to the effect that the National is one of the five companies being combined.

George Dickson of the National Company said he did not think any Nationals would be in the Glidden tour. "It has degenerated so that there are so many perfect scores that it is hard to get to the real merits of the runs," he said. "It ceases to be a great interest and is fast becoming a professional game. The public is often led astray by the reports of the merits of these cars."

An increased demand upon the factory output of the Moon Motor Car Company

moment scheduled round go between ton and Morris Ha the Marathon A. night.

B. W. Twyman departed last night for Detroit to "demand" more cars. He is snowed under with orders. He will also find out during this trip what model of E. M. F. car he will drive on the Glidden tour.

Oscar B. Henderson, an auto salesman, visited the Fisher garage yesterday. He is now connected with the Baker Electric Company. He was for several years sales manager of the Pope-Waverley Company. He said Indianapolis is an ideal city for electric machines and predicted a bright future for that make here.

The National Company denies reports to the effect that it has joined in an automobile trust. Officials say they know nothing of the rumors to the effect that the National is one of the five companies being combined.

George Dickson of the National Company said he did not think any Nationals would be in the Glidden tour. "It has degenerated so that there are so many perfect scores that it is hard to get to the real merits of the runs," he said. "It ceases to be a great interest and is fast becoming a professional game. The public is often led astray by the reports of the merits of these cars."

An increased demand upon the factory output of the Moon Motor Car Company of St. Louis has made it necessary to increase the working force 15 per cent during the last week.

L. McCullough, sales manager for the Cole Carriage Company, reports several sales and also the placing of nine agency contracts throughout the state.

The Cole Carriage Company of this city created considerable interest during the auto show week at their factory, where they were showing a Cole solid-tire auto which had been run over 10,000 miles at an upkeep of \$1.80.

The postponement of the automobile carnival in New York to the week of April 26 has been approved generally by automobile owners. A resolution was passed to set aside \$2,000 in cash prizes for decorated cars.
