

...and ... but he managed to jump from the train and escape. In spite of his manacles he has not yet been caught. The case is considered one of the most remarkable in criminal records and every effort is being made to apprehend the man who stole the Haynes and got away with the goods twice.

PREPARING FOR ROAD RACE.

Quaker City Motor Club to Hold Important Speed Event.

The Studebaker Automobile Company of New York announces the entering of a forty-horse-power Studebaker speed car in the 200-mile race to be run under the auspices of the Quaker City Motor Club on Oct. 10. This road race will bring together some of the best drivers in this country, and the course, as laid out, will test both the nerves of the drivers and the endurance of the cars. Preparations already have been completed whereby troops will patrol the entire course, and it will be possible to obtain a view of the speeding cars from along the line of the trolley road, which has its starting point at Daufir Street Station, East Park, Elm avenue, West Philadelphia.

TIRES LAST FOR 5,030 MILES.

Show Little Wear Despite Vigorous Run of Cleveland Car.

Five thousand and thirty miles on one pair of tires without a puncture or a blowout is the record of Mrs. K. R. Otis of Cleveland. Her autometer shows more than 5,000 miles, and the tires are filled with the air placed in them when the car was tested many months ago. "I've never had but one puncture," said Mrs. Otis, "and that was on the left rear wheel run from Cleveland to New York. I repaired it myself, and since then have had no more punctures. No, I will not run wood, for it is not safe. I am satisfied that I have the best tires, and that means for money. Why, my rear tires, with the 5,000 miles will have more tread. They will be wear all over."
