Pass and Wing Shift Being Used With Remarkable Success.

VER, Ind., Oct. 12.-Yesterday aftoccurred the last practice before the a Saturday. Today's work will be The first and second teams lined up egular game. The regulars kicked

the first and second teams lined up sgular gaine. The regulars kicked the ends ran down, catching the h the ball before he had covered made. The second team carried the one first down, but lost it on a punt, or regulars carried it over by line and end running. Style of forward pass was used and to be successful. It is a very darand will be a dangerous one to state thrower is accurate and the aire the ball is sure on his catch threw the ball accurately in the lile on the run and Winkle caught like on the run and Winkle caught taking a touchdown on it, which was tried that will prove cular play for it allows the backs a clean field for a run. This play worked rapidly or it will prove the sum of the second times with success, ance laid up for a day or two the libe weakened somewhat in the d, as Winkle has not learned the it he game as Vance knows it, and his considerably less. However, man on the end in Sellick's place, will be a more effective piece of y. Ashley will probably be found guard Saturday in place of Pheashas been called home a day or the search and is limproving avery day.

has been called home a day or cell, as a full back, is doing consistan dis improving every day. He is do to bring down, as he is strong it ways twisting and turning, slipfrom any insecure grasp. His punt is increasing with practice, tek-off he is doing splendid booting. Gore at left-half is improving very disgeting the very best out of possible. Thompson has spent this week in gome new plays and studying the temporary of the province of the new rules. He says the tomorrow's game will be virtualte-up in the practice game. Center, right guard, Ashley; left guard, left inow; right end, Lehman or conend, Oxsheer; quarter, Seward; it, Winkle: left half, Gore; full ampbell. D. Reynolds, Cartmel, dogen, subs. With Vance and back in the game next week will present a strong line against

EXPERIENCE IS COSTLY

As a result of our continued educational campaign in favor of shaft-driven, engine-in-front automobiles, against the old chain-driven, engine concealed-under-the-body type of runabout, we have practically forced the latter out of the Indianapolis market.

Other dealers have scoured the country for runabout of up-to-date construction to compete with the Maxwell. Some of them, mostly imitations of the Maxwell, have appeared here, and a few have been sold. One was bought about thirty days ago by a prominent local physician, and his bill for repairs the first three weeks was \$135.00. This fact is well known to all local doctors who drive autos, as they have discussed the matter freely. Had this doctor bought a Maxwell he would not only have a better machine for less money, but he would have no repair bills, as we make minor repairs and all adjustments

free of charge during the current year on Maxwell cars.

The average automobile dealer buys anything he can get to sell. The Fisher Automobile Company take the choice and best of America's offerings and then back up their opinions with a guarantee.
