# AERO CLUBS AGREE TO EXCHANGE BALLOONS

ENTRIES WILL BE ASSURED FOR ALL CONTESTS.

## BIG BOOM IN AERONAUTICS

Aeronauts believe a new record in all kinds of aeronautics will be set in 1910. This applies to both balloons and airships as there will be more regulated balloon and aviation meets than ever before. Besides the international aviation and international balloon meets there will be national balloon and national aviation meets together with a big list of contests between the same entrants in various cities.

The Indiana, St. Louis and Dayton aero clubs have already entered an agreement whereby they will exchange balloons for meets to be held in those cities and similar arrangements are expected to be made with Kansas City, New York, Boston and other aero clubs. In this manner a big list of entries will be assured for all meets. The Indiana club will have five balloons, Dayton four and St. Louis three. Altogether the arrangement is expected to prove beneficial all around.

### Fisher to Buy Aeroplane.

C. G. Fisher, president of the Indianapolis motor speedway, has decided to buy a Wright aeroplane and E. A. Moross will go to Dayton this week for the purpose of making the purchase. Fisher will

Altogether the arrangement is expected to prove beneficial all around.

### Fisher to Buy Aeroplane.

C. G. Fisher, president of the Indianapolis motor speedway, has decided to buy a Wright aeroplane and E. A. Moross will go to Dayton this week for the purpose of making the purchase. Fisher will specify that the machine be delivered within a few weeks. He has also been negotiating for a Bleriot machine, but has about given up the idea of buying for the reason that it would be necessary, under a rule of the manufacturer, to go to France and take lessons in its operation.
