I Want You to Ride with Me in a MITCHELL RUNABOUT

I don't care how many run-
abouts you have ridden in before
—the more, the merrier. I don't
care what other runabouts have
done—the better they do, the
more honor to their makers.

You may even be pleased with
some car you are "looking at"
now—but before you buy it, I
want a chance to take you out
in a Mitchell Runabout.

The Mitchell "eats up" the
steepest hills on the "high"—if
it doesn't, buy the other car.

It goes through sand and mud
to the hubs with the greatest
ease, for it not only has power
for speed, but for pulls—if it
hasn't, buy the other car.

Now, it doesn't cost you any-
thing to get a demonstration,
nor does it obligate you in the
least—it simply "shows you"
the Mitchell's value, so you know
what you are buying.

Let me take you 50, 100 or 500
miles—not in a regular demon-
stration car, but in the car you'll
get, if you buy a Mitchell. I
want your *business judgment* to
"talk" to you and decide whether
you want to pay more than
\$1,000 for a runabout.

Don't buy *any* runabout until
you *try the Mitchell*. When shall
it be, and where? Telephone
me, 3545 or Main 680.
I'm ready any time you are.
