

In the Indiana Classic, the I. A. T. A Sealed Bonnet Reliability Run to French Lick Springs and return, four Nationals made the trip—three contestants and the official press car.

Not a Seal Broken Two Perfect Scores

All Finished on Schedule Time

One contestant (which had previously covered some eight thousand miles in the hands of a private owner) suffered a slight penalization as the microscopic eyes of the technical committee discovered two broken spring plates. The National press car, besides making the trip both ways in much faster time than the schedule called for, made eighty miles in addition Thursday night in going to the rescue of the stranded technical committee. This same car made the round trip to French Lick last Sunday in a trifle over 12 hours. Hundreds of Nationals, 1, 2, 3, 4 and 5 years old, are giving similar satisfactory service over the city, state and country.
