This is the way the Mayor changed
His mind when all had been arranged
To close the "byes" on Sunday, tight,
And fool the slummers good and right,
"Respected sir," said Keach, "I pray,
You call that order buck today."
"Amen," said Poister. Now you know
The gentle "gruth."

IS MORE THAN A BAD COLD-Data Selatara de Codo de Corda de Como de Corda de Codo de Cod

merely a stubborn or protracted cold, as some people seem to think, but and dangerous blood disorder, more generally affecting the body than any ardly any part is exempt from the trouble; it attacks the head, throat, tidneys, bladder, lungs and other members, and its effects often break tely undermine the health.

ardly any part is exempt from the trouble; it attacks the head, threat, idineys, bladder, lungs and other members, and its effects often break telly undermine the health.

diseases, Catarrh comes from poisons and impurities accumulating in the smatter of the body, which should be expelled as nature intends, is left use of a singgish condition of the different parts. Then the blood as it the body collects and absorbs the foul matter, becoming polluted and muriahing the system. When the blood is in this unhealthy condition a cold starts the secretions by irritating all the delicate limings and inner iv. Thus the mistaken lites into Catarrh is a severe cold or a disease marner when can be cured with sprays, weakes, lotions, etc., is formed worse in whiter because of the cold, damp, changing, weather, which more succeptible to cold; but it is in no sense a disease that is dependently to cold; but it is in no sense a disease that is dependently in the straing and unpleasant have been worse. I best very that I was a contempt of the real sease of the cold and the sease of the sease of the cold and the cold and the sease of the cold and the cold and the sease of the cold and the cold and the cold and the sease of the cold and the cold and the sease of the cold and the cold and the cold and the sease of th

Speed Is Power—Power Is Speed

Reliability is indispensable with both power and speed if a motor car is to give its owner satisfaction. The race track proves these points before owners, buyers and makers.

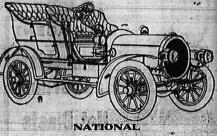

In the races here yesterday the National car in the 100-mile track race won first place—time 1 hour 53 minutes 21 4-5 seconds—which brakes the world's tuck competition record for regular stock cars—the kind the customer buys. The Frem-

customer buys. The Premier \$1,250 Runabout won second place, time 2 hours 35 minutes 18 seconds, which is the world's record for 100 miles, stock car of 16 horse-power. Neither of these cars missed a single explosion of the engine in the entire 100 miles—not a touch of a wrench or a single adjustment of any kind.

We have maintained for years that we can always be depended upon to represent absolutely the best line of motor cars to be found on the American market.

Thest like of Automobiles in the world.

Power — speed — reliability — the keynotes of satisfaction in the automobile.

We see that the cars we sell have these points above all other cars. Again we say the race track proves these points—to the OWNER, the DEALER, the MAKER and the BUYER.
