EDINBURG RACES THIS WEEK.

Program Opens on Wednesday and Closes Friday Evening.

SHELBYVILLE, Ind., July 19.—The officers of the Edinburg Racing Association have arranged July 24, 25 and 26 as their racing dates. On the first day there will be a 2:25 pace and 2:25 trot for purses of \$200

PITTSBURG, Pa., July 19.—The ninety-nine miles from Canton to Pittsburg proved to be the hardest day's work thus far for the Glidden tour entries and seven perfect scores were wiped out—four in the Glidden contest, one in the Hower and three among the cars which are competing for certificates. Those going wrong were F. J. Pardee, American Mors; Sid Slack, Lozier; P. Gaeth, Gaeth; W. J. Howard, Oldsmobile; I. C. Kirkman, Maxwell; F. M. Nutt, Haynes; H. E. Coffin, Thomas forty runabout.

The course for the day's run was changed at Freedom, from the river road to one which took to the hills and proved the downfall of many besides the perfect-score cars. Clay beds of almost bottomless depth were experienced in several places. These were responsible for many a bent axle or broken spring. The schedule was six hours, and in order to make the time it was necessary to beat it at from thirty-five to forty miles over any road which would allow of such speed, and even faster through the cities.

One stretch of nine miles of brick pavement running through Freedom gave many the desired chance to make up time. The route lay past the homestead of the founder of the Firestone Tire and Rubber Company at this point. The Firestone Company had erected a tent and presented each car with all the Jersey milk the passengers could drink, as well as with a basket containing lunch for four.

At tonight's meeting of the contestants Hower stated that there was a rumor afloat that R. M. Owen had substituted another car for the one in which he started from Cleveland. Owen submitted a letter to the committee, in which he offered to deposit a certified check for \$25,000 with the committee, to be given to any one who proved the charge.

Tourists Strike Mountains Today.

The run tomorrow is to Bedford Springs, ninety-eight miles, with a time allowance of eight hours and thirty minutes. The route is almost entirely in the Allegheny Mountains and with prospect of rain during the night the outlook is dubious indeed for the perfect score cars.

Every one is looking forward to the day's rest at Bedford Sunday.

Considerable dissatisfaction exists among the drivers about the time allowed for the runs and if tomorrow proves to be such a hard run as today trouble is in store for the officials.

H. O. Smith of Indianapolis, whose Premier touring car and roadster made perfect scores, said the run was by all odds the hardest that has yet been encountered. The twenty perfect score cars remaining for the Glidden trophy are:

It is a scientific fact that many ailments are directly due to some pelvic condition.

By this I mean that a general weakness, or nervous breakdown, is not a system itself, but is brought about by a condition of the pelvic organs.

Today the greatest specialty of treating the nervous system is the pelvic condition.

They not only test the conscientious nerve specialist, but also the condition of all of the pelvic organs.

It is an established fact that a breakdown in women is almost always the result of a pelvic condition.

If this is true in the case of women, it is also true of men.

The reason for this is the fact that the sympathetic nervous system, which controls the involuntary organs of the body, is affected by any condition of the pelvic organs. Prostatic Enlargement, but are constantly deviated.

The lack of force in the muscular system is a diseased condition of one of the pelvic organs.

I have found that the most common cause of weakness, or nervous breakdown, is often a pelvic condition that affects one or more of the pelvic organs.

EDINBURG RACES THIS WEEK.

Program Opens on Wednesday and Closes Friday Evening:

SHELBYVILLE, Ind., July 19.—The officers of the Edinburg Racing Association have arranged July 24, 25 and 26 as their racing dates. On the first day there will be a 2:25 pace and 2:25 trot for purses of \$200 each and a 3-year-old pace for a purse of \$100.

On the second day there will be a 2:16 pace and a 2:35 trot for purses amounting to \$250 in each race, and also a 3-year-old trot. On the last day there will be a 2:35 pace and a 2:18 trot, the purses in each of these races to be \$250.

DUNKIRK LOSES CATCHER.

DUNKIRK, Ind., July 19.—Orville Wolfe, the Muncie boy who has been doing great backstop work for the Dunkirk team, has resigned his position and will quit baseball for the present season at least. He is a good man, was making good money and perfectly satisfied with the team, but had other business interests demanding his attention. A new man will take the position for the games today and tomorrow with Portiaad.

MECHANICSBURG WINS, 4 TO 3.

MECHANICSBURG, Ind., July 19.—In a fast and well-played game here this afternoon, the Mechanicsburg Hollow Heads defeated the Thorntown baseball team by a score of 4 to 3. Batteries—Mechanicsburg, Murdel and Perkins; Thorntown, Ragsdale and Lafollette.

SHELBYVILLE TEAM CHALLENGES.

SHELBYVILLE, Ind., July 19.—The Shelbyville White Sox, with Clarence Campbell of this city as manager, claim to have the fastest ball team in the state, composed of boys only 18 years of age. They challenge any team in the state.

TO REIMBURSE TOURISTS.

Richmond Citizens Indignant Over Methods of Marshal Dan Drischel.

RICHMOND, Ind., July 19.—A collection is being taken up here to reimburse Harry White, James Barclay and "Doc" Duvinger, Glidden automobilists, who were fined here for fast driving through the town of Cambridge City, sixteen miles west of this city, on Wednesday.

The arrest was made on the request of Dan Drischel, the marshal of Cambridge City, and Richmond people are so indignant over the affair that they are raising the amount of the fine and will forward it with an apology to the three men. Even members of the Richmond police force have contributed to the fund.
