DENVER, July 26.—The Glidden tour-ists, who are being entertained here for a few days, visited Mt. McClellan today, after a day of pleasure yesterday with automobile enthusiasts of Denver as the hosts. The final week of the tour, which is scheduled to terminate Friday at Kansas City, will be continued tomorrow, when they will tour to Hugo, Colo., on Wednesday and to Salina, Kas., Thursday.

The visiting motorists were shown the sights of Denver yesterday in automobiles furnished by the Denver Motor Club, which took the Gliddenites on a short tour through the business and residence sections of the city. At noon a luncheon was served at the Automobile club house. During the afternoon the visitors were entertained at Lakeside, an amusement resort near Denver, where several feature attractions had been arranged in their honor. The day's program ended with a banquet tendered to the A. A. A. officials and members of the tour.

The Glidden tour has been received with great enthusiasm in the west and the genuine interest shown will undoubtedly result in better roads for this section of the country and help the manufacturers

DENVER, July 3.—The Glidden tourists, who are being entertained here for a few days, visited Mt. McClellan today, after a day of pleasure yesterday with automobile enthusiasts of Denver as the hosts. The final week of the tour, which is scheduled to terminate Friday at Kansas City, will be continued tomorrow, when they will tour to Hugo, Colo., on Wednesday and to Salina, Kas., Thursday.

The visiting motorists were shown the sights of Denver yesterday in automobiles furnished by the Denver Motor Club, which took the Gliddens on a short tour through the business and residence sections of the city. At noon a luncheon was served at the Automobile club house. During the afternoon, the visitors were entertained at Lakeside, an amusement resort near Denver, where several feature attractions had been arranged in their honor. The day's program ended with a banquet tendered to the A. A. A. officials and members of the tour.

The Glidden tour has been received with great enthusiasm in the west and the genuine interest shown will undoubtedly result in better roads for this section of the country and help the manufacturers materially in marketing their cars.

Thirteen Perfect Score Cars.

While only thirteen cars remain with perfect scores, the test has been most severe, and great credit is due all the cars, contestants and noncontestants alike for their good showing. The press cars, the Chalmers-Detroit, Studebakers, Maxwells and Thomas, while not under the same strict rules in force for the contesting cars, keep to the schedule, and many times arrive at the night's destination ahead of time.

The Brush runabouts, the smallest cars in the tour, running as noncontestants, have attracted much favorable notice by their excellent showing over roads which have proved a hard trial for the big cars.

The usual amount of tire trouble naturally resulting from the long distances covered has kept the hard-working drivers busy, an exception to the general rule being Jean Bamb, driver of the Chalmers-Detroit No. 32, who announces the exceptional luck of arriving in Denver with the same air in his tires he started with from Detroit.

The Indianapolis

WASHINGTON, July 3.—The new tariff of how the new tariff together could be relief the country would be time it was introduced it was referred to the Senate, and even at was based on promises and representations should have certain most desired.

Naturally when a foundation reaches its course, charges made. It has been denied, that thirty-nine were obtained in the promises that the number of members had not obtained, would be the bill reached the these promises were others were disregarded while others were kept after the bill went to

I have been led expression about the these days. The system raising consequences, particular congressional certain amount of power of the member representative is needed to pass the and he demands that grab. Under such circumstances usually get all he asks that it shall be forth

When the bill was sitting as a committee Progressive Republican surges—could have bill at any stage of the chairman of the Senate committed to his game actors to control on a was ruthlessly interfered President when he ins of senators should give other free ore, another extortionate duties of extortionate duties of The things that have President's back because with the nation's ably make his ears but repeated to him.
