LOCAL ENTHUSIASM OVER GLIDDEN TOUR

Autoists of This City Looking For- ward to Appearance of "Honk Honk" Artists.

WILL BE GIVEN RECEPTION

Automobile Club of Indiana to Welcome Visitors—Mayor May Make Address.

Local automobile enthusiasts are looking forward to the appearance of the Glidden touring party which is scheduled to arrive in this city next Tuesday, and quite a number are planning little excursions to meet the incoming drivers a number of miles from the city. The interest of the general public has also been aroused, and there is no question but that the visiting autoists will receive a royal welcome in this city.

The first of the Glidden party is expected to arrive in Indianapolis, if the roads are not heavy, about 4 o'clock in the afternoon. The machines will be checked in at the rooms of the Automobile Club of Indiana at the Denison Hotel, after which they will be driven to the Circle, where they will remain over night.

The various cars representing the different automobile companies' entries and the noncontesting cars will all back up around the Monument. This promises to be a splendid display and will represent over a quarter of a million dollars' outlay in mechanism. The sight promises to bring thousands of spectators out, and special arrangements have been made with the police for extra men to guard the machines over night. In reality, the Circle will afford an animated scene in the form of a big free outdoor automobile show.

The Automobile Club of Indiana, which is affiliated with the Automobile Club of America, will give the Glidden tourists a little informal reception at its clubrooms Tuesday night, after which light refreshments will be served. It is likely that an address of welcome will be made by Mayor Charles A. Bookwalter.

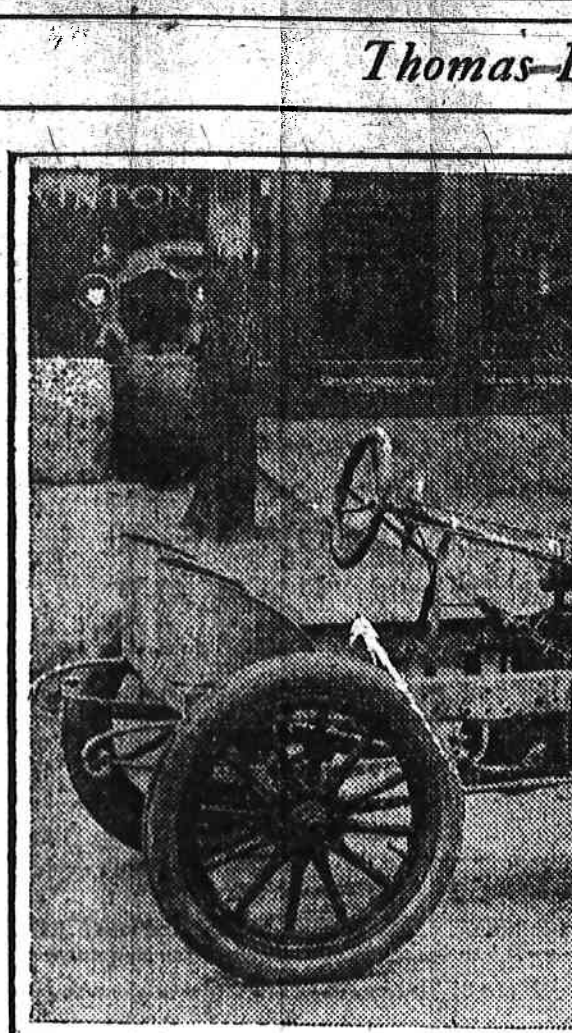

R. I. Eads has been selected as chairman of the reception committee, and several members of the club will be chosen to act as the official escort of the first car which arrives. The party will meet the tourists as they enter the city.

The headquarters for the Glidden party are at the Denison Hotel, where they will remain Tuesday night, and the drivers are scheduled to pull out of this city at 7 o'clock Wednesday morning. From this city the party goes to Cleveland.

NEW FORD ON MARKET

MACHINE FOR SALES AGENTS

Automobile Company Names Special Model in Honor of Adding Machine.

The Gibson Automobile Company has received word from the manufacturers of the Ford machine to the effect that a new special car has been prepared to be known as the "Burrough's Special." The new styled car is made for traveling purposes on the plan of the Ford run-about and contains a special box at the rear of the seat especially built for the sales agents to carry a sample of the Burrough adding machine.

At a recent convention held at Detroit, at which all the sales agents for the adding machine firm were present, the Ford manufacturers presented the new model and it was unanimously adopted as the most practical mode of transportation. In honor of the adding machine firm the Ford Company decided to call the new machine the Burrough's Special.
