COEY IN THOMAS IS WINNER

Expert Pilots, Haggard and Wan,
Drive for Twenty-Four Hours
Without Mishap.

BY A STAFF CORRESPONDENT.
CHICAGO, July 18.—The Glidden tour-
ists journeyed to Harlem this after-
noon where a twenty-four-hour endurance
race under the auspices of the Chicago
Automobile Club was held. The event
proved so attractive that every member
of the party deserted the hotels for the
race track and returned this evening en-
thusiastic about the sport.

Coey (Thomas) covered 846 miles in the
twenty-four hours. Buck and Mongini
(Matheson) were second with 842 miles,
Wagoner and Watson (Haynes) third,
with 813 miles; Sütkuss and Farnsworth
(Cadillac) fourth, with 794 miles, and
Friend (Mitchell) fifth, with 719 miles.

It was a remarkable race because of
the freedom from serious accidents. The
nearest approach to an accident was the
collision between Charles W. Price and
Mongini. When the weary drivers re-
turned to the paddock after grueling
finishes most of them almost fell from
their cars from sheer exhaustion. All
were able to shake hands with congratu-
lating friends before they retired to their
quarters.

Nerve Themselves for Final Test.

The great stand was comfortably filled
when the drivers, haggard and wan,
nerved themselves for the last three
hours' struggle for the mastery. The
infield was lined with automobiles filled
with gay enthusiasts, and the paddocks,
where the mechanics worked over the
racers, were crowded with curious watch-
ers. The track was a mass of ruts and
ridges that made every mile a fight with
death.

In the early morning hours one driver,
Gus Kabba, who relieved Coey, suddenly
lost his sight and but for the quickness of
his assistant his car would have been
dashed into the fence. Kabba was re-
moved to the Oak Park Hospital. He re-
gained his sight in a few hours and was
about the grounds in the afternoon.

The hero of the early hours was Dave
Buck Mongini's alternate. Buck drove

to retire at the beginning of the twenty-

caused by a collision with Mongini in the
back stretch.

The early morning hours were without
incident. The Pope-Toledo cars were
both helplessly disabled in the seven-
teenth hour and were compelled to retire
with a record of 454 miles.

FOOTBALL OFFICIALS MEET.

Want to Choose Rules Committee to Satisfy All Big Colleges.

NEW YORK, July 13.—The members of
the executive committee of the new Inter-
collegiate Athletic Association of the United
States have submitted a plan for the selection
of a football rules committee for all
colleges which will probably be adopted at
the next conference. The bylaw to be of-
fered for acceptance is as follows:

Section 1—The association, at its annual
convention shall choose a committee of
seven to draw up rules for the playing of
the game of football during the succeeding
season, in conjunction with one representa-
tive named by the authorized athletic au-
thorities of Yale, Princeton, Harvard, Cornell
and Pennsylvania, respectively, and the

In the first game of the double-header
at Washington Park the Lillys took a
burlesque battle from the Marion Club by
the humorous combination of 15 to 13.
The Marions were very consistent, get-
ting thirteen runs, thirteen errors and ten
hits (being three shy on the hits). The
Lillys were off on their run column, as
they had seven hits and seven errors.

Popes Annex Two.

Meanwhile the Popes were not doing a
thing to the Parrys. When the dust set-
tled the buggy makers were stretched out
hors du combat and the motorists were
trudging away with a double-header
safely tucked in their pockets. The Popes
took the first game 8 to 5 and the second
one 6 to 4.

The Popes are now only one half game
behind the Atkins and with Walter Queis-
ser pitching for them the remainder of
the season are an even shot against the
field for the pennant. Tall doings are
scheduled in the remaining games of the
City League and the Atlas team seems to
be able to cut some figure also. Scores:
