# GRAND PRIZE MOTOR RACE TO BE REVIVED

CLASSIC EVENT SCHEDULED FOR  
OCTOBER.

## MAY LIMIT NUMBER OF CARS

NEW YORK, February 12.—The Grand  
Prize, the classic of automobile racing  
now that the Grand Prix is apparently a  
thing of the past, will be revived this  
year. All doubts that the big motor car  
speed contest will have a 1910 revival after  
last year's layoff have been removed. Al-  
though no mention of the Grand Prize  
was made in the recently issued calendar,  
comprising one hundred sanctioned dates,  
by the contest board of the American Au-  
tomobile Association, it is almost a surety  
that it will be staged.

No definite time has been fixed, but the  
race will very probably be held either on  
October 15 or 22. The place was not stip-  
ulated in the sanction, but it will be de-  
cided on either Long Island or the Motor  
parkway. A movement is said to be un-  
der way to swing the Grand Prize to the  
course at Riverhead. Those who wit-  
nessed the Long Island stock car derby  
there last autumn, with its speed flights,  
were unanimous that it is the fastest  
road speedway in this country. These two  
courses make Long Island a very strong  
Grand Prize contender.

### Long Island Favored.

The fact that the event is on schedule  
for October is another point in Long is-  
land's favor. The Vanderbilt Cup con-  
test will be held on the motor parkway  
on October 1. Rumor has it that the  
Grand Prize will be run a fortnight or so  
later. According to the plan, the Van-  
derbilt may be made an elimination event  
to the Grand Prize. The scheduling of  
the great classic for October, and nec-  
essarily later in the month than the Van-  
derbilt, makes this quite possible.

While no plans have been officially an-  
nounced for the 1910 Grand Prize, many  
month's speculations have taken out.

The place was not stipulated in the sanction, but it will be decided on either Long Island or the Motor parkway. A movement is said to be under way to swing the Grand Prize to the course at Riverhead. Those who witnessed the Long Island stock car derby there last autumn, with its speed flights, were unanimous that it is the fastest road speedway in this country. These two courses make Long Island a very strong Grand Prize contender.

### Long Island Favored.

The fact that the event is on schedule for October is another point in Long Island's favor. The Vanderbilt Cup contest will be held on the motor parkway on October 1. Rumor has it that the Grand Prize will be run a fortnight or so later. According to the plan, the Vanderbilt may be made an elimination event to the Grand Prize. The scheduling of the great classic for October, and necessarily later in the month than the Vanderbilt, makes this quite possible.

While no plans have been officially announced for the 1910 Grand Prize, many possible regulations have leaked out. It is said that a country's entries will be limited to three cars. Incidentally an attempt will be made to give the Grand Prize a stronger international flavor than ever before. There is talk of getting a special dispensation from the racing rules authorities, so that an engine of 5.1 inch bore and unlimited stroke will be eligible for Grand Prize competition. Such a proceeding would mean a return to the "freak speed monsters" of former Vanderbilt cup days. However, it is not generally thought that an unlimited stroke race would be met with approval by the manufacturers. The "stock car" idea in competition has made too much progress recently to be cast aside for the racing of freak cars.
