Two more entries have been received
for the automobile races, to take place on
the Speedway Aug. 19 to 21. This makes
the total equal thirty-two. A Benz and a
Fiat are the two new members of the In-
dianapolis racing contestants. The Benz is
ranked as one of the fastest cars in the
world and is capable of a two-mile-a-min-
ute clip. It will add excitement to the
local speed trials and will be a leading
competitor for the valuable trophies.

The F. I. A. T., pride of critical
Italians, votive symbol of the great height
that they have attained in the manufac-
ture of motor cars, with that fearless
driver, Eddie Hearne of Chicago, as its
pilot around the curves of the fastest
course ever constructed, is garnered in
the flock of the Indianapolis Motor Speed-
way, livid with the greatest drivers that
the world has ever seen competing for
the czar of all trophies, the Wheeler-
Schebler cup.

Today the Wheeler-Schebler race be-
comes an event of national importance
that has never been equaled or ap-
proached at any speed carnival. Fates of
the countries represented by cars are be-
ginning to take a real aspect and men
from all parts of the world will fawn and
cring with the goddess of fortune like an
audience at an Olympic carnival. Na-
tion's destinies will rest on the records of
the cars in the greatest of all races.
