base would arrive soon from the government on the application of eight members. These are to be put into Eagle Creek. The number of bass fry at the hatchery is estimated at from 14,000 to 15,000. The work of restocking from it will begin tomorrow under the direction of George Berg and William Bor denkecher. The treasurer, Gustav Habic, reported that the finances of the association were not in a satisfactory condition, owing to the failure of some of its members to pay their dues promptly. The board of directors will make a strenuous effort at once to raise sufficient funds to pay the expense of conducting the work outlined for this year.

MERKEL SENDS STRONG TEAM

Plans to Place Competent Motorcycle Riders in Races.

The Merkel Light Company, Pottstown, Pa., will have a very competent racing team here, which will be headed by the world's cleverest and cleanest amateur rider, Mr. Stanley T. Kellogg, who will show to the racing world for the first time to advantage the wonderful "Flying Merkel" double-cylinder motorcycle. This is the wonderful machine that on its first appearance out of the factory at Point Breeze track, Philadelphia, clipped nine minutes off the twenty-five-mile track record and beat the nearest competitor four minutes. This machine has only been shown once since, which was at the national hill climb in New York, where Mr. Kellogg hurt himself very badly, he having run into motorcyclists who were standing in the road while he was going in record time; and all those spectators who saw the performance of this wonderful machine, both at New York and Philadelphia, expect to see this machine, with Mr. Kellogg in the saddle, break every world's record for from one to twenty-five miles in Indianapolis. The "Flying Merkels" will be entered in large numbers in the national endurance run, one team of seven riders alone coming from Erie, Pa.
