

# THREE MORE CARS ENTER MOTOR SPEEDWAY EVENTS

TWO CHALMERS-DETROITS AND  
ANOTHER NATIONAL LATEST.

EASTERN RACERS EXPECTED

[By Carburator.]

Entries were received yesterday of three additional cars that are expected to compete in the opening events at the Indianapolis motor speedway. The first to be received were those of the Chalmers-Detroit Company, of Flint, Mich. The company enters two of its Chalmers Blue Birds, those names having been adopted in recent big racing events and in the Golden tour. The cars are bright blue in color.

Following the Chalmers-Detroit entries A. C. Newby, president of the National Motor Vehicle Company, of Indianapolis announced his decision to enter a sixth National in the races, bringing the total number of entries up to thirty-two. The National will compete for the Wheeler Schaefer trophy.

E. A. Moross, director of events at the speedway, left this morning for New York, where he goes to round up some of the eastern manufacturers. He will witness the twenty-four-hour race at Brighton Beach tomorrow and Saturday, and then negotiate for the entries of the Fiat and Benz cars. Moross also expects to visit Morris park and arrange for aeroplanes and dirigible balloons for the Labor day races at the speedway. He will stop at Washington and return to Indianapolis next week.
