

# NEW MOTOR SPEEDWAY TO RESEMBLE BOULEVARD

**MANAGEMENT MAY PURCHASE  
BITU-MINERAL PLANT.**

## PLANS FOR RECONSTRUCTION

The Indianapolis motor speedway is yet to be what has been claimed for it—the best automobile course in the world. To that end the management will spare no expense. Its purpose being shown in a trip made to Paris, Ky., last night, by E. A. Gross, director of events.

Moross is now at Paris with instructions to purchase at a cost of \$5,000 an entire manufacturing plant. This plant, which turns out a substance known as bitu-mineral, will likely be purchased and moved to Indianapolis, being located on the speedway ground.

The bitu-mineral is a cement substance which the management plans to use in the reconstruction of the course. The speedway as now constructed will remain as it stands, with the exception that more ballast will be used at the turns. On top of the present surface it is planned to place a five-inch layer of the bitu-mineral, making a track that, when completed, will be a counterpart of the Fall Creek boulevard. This improvement, together with the additions to the grand stands, will be made, according to plans, in time for the October race meet. The speedway management plans to expend in the neighborhood of \$100,000.

# NEW MOTOR SPEEDWAY TO RESEMBLE BOULEVARD

MANAGEMENT MAY PURCHASE  
BITU-MINERAL PLANT.

## PLANS FOR RECONSTRUCTION

The Indianapolis motor speedway is yet to be completed but has been claimed for it—the most automobile course in the world. To complete the management will spare no expense, its purpose being shown in a trip made to Paris, Ky., last night, by E. J. ... director of events.

Management is now at Paris with instructions to purchase at a cost of \$5,000 an entire manufacturing plant. This plant, which will produce a substance known as bitu-mineral, will likely be purchased and shipped to Indianapolis, being located on the speedway ground.

The bitu-mineral is a cement substance which the management plans to use in the reconstruction of the course. The track now constructed will remain as is, with the exception that more bitu-mineral will be used at the turns. On top of the present surface it is planned to place a five-inch layer of the bitu-mineral, making a track that, when completed, will be a counterpart of the Fall Creek boulevard. This improvement, together with the additions to the grand stands, will be made, according to plans, in time for the October race meet. The speedway management plans to expend in the neighborhood of \$150,000.

Noted Aviator May Come.

# PLANS FOR RECONSTRUCTION

The Indianapolis motor speedway is yet to be what has been claimed for it—the best automobile course in the world. To this end the management will spare no expense, its purpose being shown in a trip made to Paris, Ky., last night, by E. A. Larosa, director of events.

Marcas is now at Paris with instructions to purchase at a cost of \$5,000 an entire manufacturing plant. This plant, which turns out a substance known as bitu-mineral, will likely be purchased and moved to Indianapolis, being located on the speedway ground.

The bitu-mineral is a cement substance which the management plans to use in the reconstruction of the course. The speedway as now constructed will remain as it stands, with the exception that more rubber will be used at the turns. On top of the present surface it is planned to place a five-inch layer of the bitu-mineral, making a track that, when completed, will be a counterpart of the Fall Creek boulevard. This improvement, together with the additions to the grand stands, will be made, according to plans, in time for the October race meet. The speedway management plans to expend in the neighborhood of \$100,000.

## Noted Aviator May Come.

As a special feature of the big automobile meet now planned for October an effort is to be made to have Glenn H. Curtiss appear in Indianapolis with his aeroplane. A cablegram was sent to Malone last night offering Curtiss a fabulous sum for his services. The American aviator has accomplished wonderful feats with his flying craft across the ocean, having attracted attention in all parts of the world. Along with other celebrities of his class Curtiss would prove a big attraction.
