

GE FIRST ACCIDENT TO SPEEDWAY RACE RIDER

TO GIVE

CLIFFORD LITTERALL, MECHANICIAN, FATALLY INJURED.

RUN OVER ON WAY TO TRACK

Clifford Litterall, twenty-seven years old, a mechanic employed by the Stoddard-Dayton Motorcar Company of Dayton, O., lies in a critical condition at the Methodist hospital, the result of an accident at Vermont street and Capitol avenue, yesterday.

Litterall is a member of the Stoddard-Dayton crew here for the races at the motor speedway. Shortly before noon yesterday Bob Burtrell, one of the drivers, and his mechanic started for the speedway on a racing car. Litterall, who was mechanic for driver Tillotson, was at the Fisher garage in Capitol avenue, waiting for Tillotson to return from a visit downtown. When he saw Burtrell and his mechanic start out, he decided to go with them and then wait for Tillotson at the speedway. As the Burtrell car ran out of the garage, Litterall jumped on the rear of the machine, taking a seat on a reservoir.

Just as the car rounded into Vermont street out of Capitol avenue, Litterall saw Tillotson coming north in Capitol avenue. He loosened his hold to wave to Tillotson. The sudden swerve of the car caused him to pitch forward, and he fell under the rear wheels of the car. He was picked up unconscious and taken to the hospital.

He was picked up unconscious, and the physicians summoned found that his chest had been crushed. He was hurried to the Methodist hospital, and his condition was such today that he was not expected to recover. Litterall is married. His wife, father and sister are with him. During a conscious moment this morning Litterall told his sister that his clothing caught in the machinery and he was drawn under the wheels, but this is declared to have been impossible.
