AN A TENNIS TOURNEY

NDAY SCHOOLS IN SPORT

ND ANNUAL COMPETITION OF ARION COUNTY ASSOCIATION ATTRACTS GOOD FIELD OF CONTESTANTS.

considerable interest is being manifested in the second annual tennis tournament to be held under the auspices of the Marion County Sunday School Association. A number of the county's best players have entered the tourney. Included in the list is Mrs. Louise Pugh, the present state champion; Miss Frances Potter, runner-up, Miss McHatton, Miss Hewitt, Julius Hunt, at one time intercollegiate champion of the state, and many others of marked ability.

Preliminary games all will be played off at private courts and results reported to J. King, 931 State Life Building, who is in charge of the tourney. The semi-finals and finals will be played off on the beautiful courts of the Indianapolis Tennis Association. These courts are located on the old arsenal grounds and are the finest in the state. There will be no charge for admittance. All preliminaries and semi-finals will be decided by two out of three sets and final games three out of five. The pairings follow:

- CLASS A, MEN'S SINGLES.**
 F. Coffin Sr. (Central Avenue M. E.)
 vs. B. Nicholson (Second Presbyterian).
 J. Marsh (Central Avenue M. E.) vs.
 Taylor (First Baptist).
 S. King, bye.

ENTERS FLYING MACHINE

WISCONSIN AVIATOR TO RACE

WARNER'S BIPLANE WILL COMPETE IN AEROPLANE EVENTS AT THE INDIANAPOLIS MOTOR SPEED- WAY.

Another entrant is certain for the Speedway aeroplane races, to be held here Oct. 14, 15 and 16. C. H. Warner of Beloit, Wis., has purchased a flying machine of the Curtiss type, and will enter it in the bird-imitating events. He is the expert who constructed the \$10,000 timing device used at the Speedway during the automobile races. His flying craft is a biplane.

That Indianapolis is leading the procession in this country is shown by the fact many cities are now bidding for the great flyers. Cincinnati, St. Louis and other cities are offering big sums of money to get these flyers to give exhibition performances. Indianapolis boosters were on the job at the jump, however, and, having the best location in this country for such purposes, and offering, so far, the biggest prizes, it is certain that the world will be given a duplicate to the great Rheims meet here in this city.

Glenn H. Curtiss's victory in the International Aviation Cup contest has demonstrated two things very forcibly in this country. First, that many cities and associations are eager to hold flying exhibitions with Mr. Curtiss, if possible, as the star performer, and, second, that fully as many cities are ready to bid for the honor of holding the big aviation race next year. Recently a letter was received at the Aero Club of America from a man representing a syndicate in Cincinnati promising that a guarantee of \$100,000 will be forthcoming if that city should be selected by the Aero Club of America for the international meet.

Awalt Return of Bishop.

So far as the preparations for next year go, the directors of the Aero Club have as yet taken no action. They are leaving everything until the return of Pres-

**AMERICAN TENNIS PLAYERS
 DEFEAT BRITISH EXPERTS**

**Signal Victory Over England's
 Team in First Two Matches**
 for Davis Cup.

PHILADELPHIA, Pa., Sept. 11.—America's tennis team today won the first two matches of the Davis Cup international challenge with brilliant ease. A. Cannon and William J. Johnston defeated the British pair of F. Shaw and J. C. ...

Awalt Return of Bishop.

So far as the preparations for next year go, the directors of the Aero Club have as yet taken no action. They are leaving everything until the return of President Cortlandt Field Bishop, who will come home immediately after the international balloon race at Zurich, Switzerland, Oct. 3, in which Mr. Bishop has consented to act as aid to E. W. Mix, who will pilot the American balloon, using the one made last year for James E. McCoy.

It can be stated, however, that the general preference of the directors as the headquarters for the aviation meet is on the Hempstead Plains or Indianapolis Motor Speedway. No better ground in the world can be found than either place for long and safe flying tests. The Aero Club lately made arrangements with the Long Island Motor Parkway whereby a section of ground not far from Garden City has been set apart as the club's aviation ground, and this may be used as the nucleus for the big competition. To properly equip the place, build grand stands, sheds and attend to the countless other details means a large outlay of money, and since the Motor Speedway already is equipped with buildings it is probable Indianapolis will get the event. The first big aviation meet in America will virtually be a repetition in popular interest of the first Vanderbilt Cup automobile race and would attract thousands of spectators.

Will Raise \$100,000 in Prizes.

The chief problem, and one that has been discussed informally, is where are the prizes coming from? Alan R. Hawley's suggestion that a fund of \$100,000 ought to be raised by persons interested in the progress of aeronautics in this country has been commented upon favorably in many quarters. Already the cable dispatches from abroad seem to indicate that the leading foreign aviators do not look cheerfully upon the necessity of coming to America to win the international trophy. Something substantial must be offered as the magnet to draw them, and the suggestion that a fund of \$100,000 be raised for the purpose of gold or silver.

Over \$40,000 was offered in prizes for the various events at Phoenix. For next year's contest much more must be offered. This will be necessary, as the money goes to order to make the best of the participants to come here for it will mean a very large and greater expense than to go to any reasonable part of ...

**AMERICAN TENNIS PLAYERS
 DEFEAT BRITISH EXPERTS**

**Signal Victory Over England's
 Team in First Two Matches
 for Davis Cup.**

PHILADELPHIA, Pa., Sept. 11.—America
 had a signal victory over Great Britain
 in the first two matches for the Davis
 national challenge lawn tennis cup.
 Sam A. Larned and William J. Clothier
 defeated, respectively, C. P. Dixon and J. C.
 without the loss of a set.
 Larned outclassed Dixon most of the time.
 Parke made a better fight against
 Clothier, forcing the third set to deuce
 5-5. In neither match, however, was
 there serious doubt of the ultimate result,
 that America would be challenger.
 Australia is now regarded as al-
 a certainty. Only one more point is

Await Return of Bishop.

So far as the preparations for next year
 go, the directors of the Aero Club have
 as yet taken no action. They are leav-
 ing everything until the return of Presi-
 dent Cortlandt Field Bishop, who will
 come home immediately after the inter-
 national balloon race at Zurich, Switzer-
 land, Oct. 2, in which Mr. Bishop has con-
 sented to act as aid to E. W. Mix, who
 will pilot the American balloon, using
 the one made last year for James E.
 McCoy.

It can be stated, however, that the
 general preference of the directors as the
 headquarters for the aviation meet is on
 the Hempstead Plains or Indianapolis
 Motor Speedway. No better ground in the
 world can be found than either place for
 long and safe flying tests. The Aero
 Club lately made arrangements with the
 Long Island Motor Parkway whereby a
 section of ground not far from Garden
 City has been set apart as the club's
 aviation ground, and this may be used
 as the nucleus for the big competition.
 To properly equip the place, build grand
 stands, sheds and attend to the count-
 less other details means a large outlay
 of money, and since the Motor Speedway
 already is equipped with buildings it is
 probable Indianapolis will get the event.
 The first big aviation meet in America will
 virtually be a repetition in popular in-
 terest of the first Vanderbilt Cup auto-
 mobile race and would attract thousands
 of spectators.

Will Raise \$100,000 in Prizes.

The chief problem, and one that has
 been discussed informally, is, Where are
 the prizes coming from? Alan R. Hawley's
 suggestion that a fund of \$100,000 ought
 to be raised by persons interested in the
 progress of aeronautics in this country
 has been commented upon favorably in
 many quarters. Already the cable dis-
 patches from abroad seem to indicate
 that the leading foreign aviators do not
 look cheerfully upon the necessity of com-
 ing to America to win the international
 trophy. Something substantial must be
 offered as the magnet to draw them, and
 the essential thing seems to be generously
 filled purses of gold or silver.

Over \$40,000 was offered in prizes for
 the various events at Rheims. For next
 year's contest much more must be
 awarded. This will be necessary, as
 Hawley says, in order to induce the best
 of the foreigners to come here, for it will
 require more time and greater expense
 than to go to any reasonable part of
 Europe. Moreover, if the outlook for the
 American competition is not made very
 attractive at a comparatively early date
 the foreign clubs and cities will very like-
 ly plan big contests of their own and more
 attractive, perhaps, in a financial way than
 would accrue from merely winning the
 prestige of holding the international cup
 with a prize of \$5,000 to the victor.

 and Miss Hewitt.
 Williams and Mrs. Pugh, bye.

**AMERICAN TENNIS PLAYERS
 DEFEAT BRITISH EXPERTS**

Signal Victory Over England's
 Team in First Two Matches
 for Davis Cup.
 PHILADELPHIA, Pa., Sept. 11.—America
 led a signal victory over Great Britain
 in the first two matches for the Davis
 national challenge lawn tennis cup.
 Sam A. Larned and William J. Clothier
 led, respectively, C. P. Dixon and J. C.
 without the loss of a set.
 Larned outclassed Dixon most of the time,
 Parke made a better fight against
 Clothier, forcing the third set to deuce.
 In neither match, however, was
 serious doubt of the ultimate result,
 that America would be challenger
 against Australasia is now regarded as al-
 most a certainty. Only one more point is

The chief problem, and one that has
 been discussed informally, is, Where are
 the prizes coming from? Alan R. Hawley's
 suggestion that a fund of \$100,000 ought
 to be raised by persons interested in the
 progress of aeronautics in this country
 has been commented upon favorably in
 many quarters. Already the cable dis-
 patches from abroad seem to indicate
 that the leading foreign aviators do not
 look cheerfully upon the necessity of com-
 ing to America to win the international
 trophy. Something substantial must be
 offered as the magnet to draw them, and
 the essential thing seems to be generously
 filled purses of gold or silver.
 Over \$40,000 was offered in prizes for
 the various events at Rheims. For next
 year's contest much more must be
 awarded. This will be necessary, as
 Hawley says, in order to induce the best
 of the foreigners to come here, for it will
 require more time and greater expense
 than to go to any reasonable part of
 Europe. Moreover, if the outlook for the
 American competition is not made very
 attractive at a comparatively early date
 the foreign clubs and cities will very like-
 ly plan big contests of their own and more
 attractive, perhaps, in a financial way than
 would accrue from merely winning the
 prestige of holding the international cup
 with a prize of \$5,000 to the victor.

It can be stated, however, that the
 general preference of the structure at the
 headquarters for the aviation meet is on
 the Hempstead Plains or Indianapolis
 Motor Speedway. No better ground in the
 world can be found than either place for
 long and safe flying tests. The Aero
 Club lately made arrangements with the
 Long Island Motor Parkway whereby a
 section of ground not far from Garden
 City has been set apart as the club's
 aviation ground, and this may be used
 as the nucleus for the big competition.
 To properly equip the place, build grand
 stands, sheds and attend to the coun-
 less other details means a large outlay
 of money, and since the Motor Speedway
 already is equipped with buildings it is
 probable Indianapolis will get the event.
 The first big aviation meet in America will
 virtually be a repetition in popular in-
 terest of the first Vanderbilt Cup auto
 mobile race and would attract thousands
 of spectators.

Will Raise \$100,000 in Prizes.

Will Raise \$100,000 in Prizes.

AMERICAN TENNIS PLAYERS DEFEAT BRITISH EXPERTS

Signal Victory Over England's Team in First Two Matches for Davis Cup.

PHILADELPHIA, Pa., Sept. 11.—America
has won a signal victory over Great Britain
in the first two matches for the Davis
international challenge lawn tennis cup.
Francis A. Larned and William J. Clothier
defeated, respectively, C. P. Dixon and J. C.
St. John, without the loss of a set.
Larned outclassed Dixon most of the time,
while Clothier made a better fight against
St. John, forcing the third set to deuce
twice. In neither match, however, was
there any serious doubt of the ultimate result,
and that America would be challenger
for the cup against Australasia is now regarded as
a certain certainty. Only one more point is
needed to win the cup.

The American team, which is composed of Larned, Clothier, St. John and Pugh, won the first two matches by a 2-1 margin. The British team, which is composed of Dixon, St. John, Pugh and Hoad, lost the first two matches by a 2-1 margin.
The first match was a doubles contest between Larned and Clothier on the one hand, and Dixon and St. John on the other. The Americans won this match by a 2-1 margin. The second match was a doubles contest between Clothier and St. John on the one hand, and Pugh and Hoad on the other. The Americans won this match by a 2-1 margin.
The third match, which was a singles contest between Larned and St. John, was scheduled for today but was postponed because of rain. It is expected that this match will be played on Thursday.
The Davis Cup is a trophy which is awarded annually to the nation whose tennis players are successful in this international contest. The cup is named in honor of Dwight Davis, an American tennis player who first suggested this contest in 1900.
The prize money for the Davis Cup is \$50,000, which is divided equally among the four nations which are competing for the cup. The prize money is used to defray the expenses of the tournament and to reward the players who are successful in the contest.
The Davis Cup is one of the most prestigious trophies in the world of tennis, and it is highly coveted by all tennis players. The Americans are currently leading the competition, and they are expected to win the cup this year.

With Prize \$50,000 in Purses.

The chief problem, and one that has been discussed informally, is, Where are the prizes coming from? Alan W. Hawley's suggestion that a fund of \$100,000 ought to be raised by persons interested in the progress of aeronautics in this country has been commented upon favorably in many quarters. Already the cable dispatches from abroad seem to indicate that the leading foreign aviators do not look cheerfully upon the necessity of coming to America to win the international trophy. Something substantial must be offered as the magnet to draw them, and the essential thing seems to be generously filled purses of gold or silver.

Over \$40,000 was offered in prizes for the various events at Rheims. For next year's contest much more must be awarded. This will be necessary, as Hawley says, in order to induce the best of the foreigners to come here, for it will require more time and greater expense than to go to any reasonable part of Europe. Moreover, if the outlook for the American competition is not made very attractive at a comparatively early date the foreign clubs and cities will very likely plan big contests of their own and more attractive, perhaps, in a financial way than would accrue from merely winning the prestige of holding the international cup with a prize of \$5,000 to the victor.
