 ner, and Taggart offered to present an-
 other cup.

Atkins's average for the entire distance,
 including the six or seven miles addition-
 al, was just about the same as that made
 by Gardner. The confetti car got off the
 route between Salem and Livonia.

MAY USE SPEEDWAY.

**Auto Manufacturers Invited to Utilize
 Famous Track for Trials.**

The Indianapolis Motor Speedway is to be
 used to develop the automobile industry.
 Many people imagine that the sole purpose
 of the building of the Indianapolis Motor
 Speedway has been for racing purposes. This
 is a decided error. While it is true that
 speed contests of various kinds, in which
 the automobile will take the most important
 part, induced the management to build the
 course, the Speedway is about to branch out
 on a new line for which it is well adapted.

Recently a letter was sent to the leading
 manufacturers throughout the United States,
 such as the Peerless Motor Car Company of
 Cleveland; the F. B. Stearns Motor Car
 Company of Cleveland, the Packard Motor
 Car Company of Detroit, the Pierce Auto
 Company of Buffalo and many others, offer-
 ing them the use of the Speedway for the
 purpose of testing out their new and next
 year's models under every condition, these
 trials to be made in private and behind
 closed gates, or open to the public without
 charge of admission. The Speedway will be
 ready for use about Nov. 1.

**FOOTBALL ELEVEN AT

**Teams Forming League at South Side
 Institution Prepare for First
 Games of Season.**

All of the teams of the Interclass Football
 League of Manual Training High School have
 held hard practice throughout the week in
 preparation for the first games, with the
 exception of the Sophs. The Juniors prac-
 ticed Monday and yesterday afternoons.

Rain did not prevent a good workout, as
 the boys stuck to practice until they were
 drenched to the skin. Hard signal practice
 was the principal part of the work. Capt.
 Markey has not chosen his lineup for the
 first game so far.

The Freshmen were not quite so courageous
 as the Juniors and failed to have an outdoor
 practice. They spent the afternoon very
 profitably by having a blackboard drill on
 signals. The Seniors, who are the oppo-
 nents of the Freshmen in the first game
 next Saturday have had only one practice
 this week.

The Sophomores hold their first practice
 tomorrow. Oscar Chenoweth has given the
 Sophomores a boost by signifying his inten-
 tion of trying for the team. He was a mem-

playing and Hopkins has
 practice since his return
 on account of a lame
