

HANDICAP BALLOON RACE CUP OFFERED BY MERCHANTS ASSOCIATION OF INDIANAPOLIS.

The inaugural crowd of spectators at the Indianapolis Motor Speedway tomorrow to witness the national balloon race will see what is reported to be the world's best. This track is a marvel from the standpoint of scientific and rapid construction. The contractors have been working on the peaceful Hoosier farm, changing it into a race course, but a few weeks. The outer track is two and one-half miles in length as is also the inner. During special speed races the outer course

alone will be used, as the high-banked curves are calculated to admit of a two-mile-a-minute clip. Expert drivers, such as Barney Oldfield, who have inspected the track, declare it to be without a rival. The national convention of motorcyclists will be held on this track in July. It is expected that all of the two-wheel motor records will be left by the wayside. The automobile races begin in August. The Merchants' Association of Indianapolis has added its approval to the balloon races by offering a \$300 silver cup to the winner of the handicap race.

WIDOW'S WILL BEQUEATHS \$200,000 TO CHARITIES
