Championship Events and Trials  
by Barney Oldfield Hold Cen-  
ter of Enthusiasm.

### HARROUN UNHURT IN QUEER SMASH

Ray Harroun escaped death or in-  
jury by a miracle when his speedy  
Wasp, the car with which he won the  
200-mile race of Saturday, mounted  
the wall on the end turn and traveled  
astride it for about 111 feet.

The rear tire blew up.

The machine swerved and struck the  
wall, tearing a hole in it, and mount-  
ing the wall for a slide. The car was  
wrecked.

## MONDAY'S RACES AT MOTOR SPEEDWAY

Races start at 1 o'clock.

Barney Oldfield will make trials against  
time for the kilometer, half mile and mile  
world's records.

Event No. 1—Stock chassis cars, Class B,  
Division 1—160 cubic inches piston dis-  
placement and under. Minimum weight,

The closing day of the Speedway program was witnessed by a crowd of 50,000.

# KIDNAPED GIRL PUT TO DEATH AT LOUISVILLE

Body of Alma Kellner Found in  
Cellar at St. John's Parochial School.

## WRAPPED IN OLD CARPET

Child Had Been Missing Since  
December When Demanded  
Ransom of \$5,000

LOUISVILLE, Ky., May 30.—The body of 8-year-old Alma Kellner, daughter of Mr. and Mrs. Fred Kellner, who has been missing from her parents' home on Broadway since Dec. 8, was found in an unused cellar of the St. John's parochial school, on Broadway, Monday. All indications point to the child having been murdered and her body hidden through a trap door into the unlighted passageway.

After the girl disappeared she was received by her relatives demanding a ransom.

The discovery was made by Dr. J. J. a plumber, who was engaged in putting water out of the cellar. When he got most of the water out he saw a shoe protruding from a lot of dirt. Taking hold of it, he found the body of a child wrapped in carpet. As he pulled the carpet the flesh fell from the body. He telephoned to his brother and Police Chief Lindsay, who went to the spot and sent to the Kellner family. Mr. Kellner.

Says It Is Alma's Body. Mr. Frank Fehr, who arrived at the child's father a short time after the discovery, had been disappeared after
