AUTO DRIVER GOES OVER BIG RACES IN DELIRIUM

HERBERT LYTLE SUFFERS FROM
MENTAL DISORDER.

UNAWARE OF ANY ACCIDENT

(Special to The Indianapolis News.)

KOKOMO, Ind., October 12.—Herbert Lytle, professional automobile racing driver of this city, who was injured when his car was wrecked in the race at Riverhead, L. I., two weeks ago, has not yet made enough progress toward recovery to be brought home. Information received at the office of the Appertson Automobile Company, by which Lytle is employed, is to the effect that he is perfectly sound physically, but suffering from a serious mental disorder.

As yet, Lytle does not realize that he was in a race on the day of the accident; does not know that his car was wrecked and that his racing partner and friend, Joe Bates, was killed. In his delirium he is constantly driving over again the big races in which he has participated, sometimes shouting defiantly to opposing drivers and at other times talking confidently to the faithful Bates.

Remembers Date of Race.

A peculiar feature of the driver's condition is that he has an accurate grasp of dates. Early last week he happened to remember that the race at Fairmount Park, Philadelphia, was to be run on the following Saturday. Instantly he became all eagerness and excitement. He imagined he was working on his car.

In his delirium he is constantly driving over again the big races in which he has participated, sometimes shouting defiantly to opposing drivers and at other times talking confidently to the faithful Bates.

Remembers Date of Race.

A peculiar feature of the driver's condition is that he has an accurate grasp of dates. Early last week he happened to remember that the race at Fairmount Park, Philadelphia, was to be run on the following Saturday. Instantly he became all eagerness and excitement. He imagined he was working on his car, getting it ready for the big contest. He became so engrossed in his imaginary preparations that his attendants became fearful of the result if he continued, and in order to get his mind off the subject had the local office of the Apperson Company send him a telegram that the race had been declared off.

The message puzzled him, but served to relax the tension of his mind. Since receiving it he has been quieter and, it is believed, is now making substantial progress toward recovery. Mrs. Lytle, who was at the race course when her husband was injured, is with him. Their two little sons are with friends in this city.
