KEROSENE TO BE USED AS FUEL FOR MOTORS

WHITE COMPANY ANNOUNCES
CHANGE IN 1910 MODELS.

SUBSTITUTE FOR GASOLINE

[By Carburator.]

The official announcement has just been made that kerosene may be used as fuel in the 1910 models of the White Steamer. It has many times been predicted that, with the number of automobiles constantly increasing, there would soon come a time when it would not be possible to produce sufficient gasoline, at least at anywhere near a reasonable price. As the price of gasoline has been steadily rising, this prediction is probably well founded, and, therefore, the announcement that such a large maker of cars as the White Company can practically dispense with gasoline is of far-reaching importance. It will still be necessary that a White car be provided with a small supply of gasoline for use in the pilot light, but the quantity so used is negligible and a very small amount will last for several hundreds of miles.

The White Company has been working for ten years, or ever since they commenced to manufacture automobiles, on a kerosene burner, but it was not until the last few months that it was developed to the point where the company felt that they could recommend kerosene as fuel for their cars. An important feature of the new burner is that it may readily be adjusted so as to burn gasoline if for any reason it is desired to use the latter fuel.

National Car in Hill Climb.

A. C. Newby, president of the National Motor Vehicle Company, left to-day for Wilkes-Barre, Pa., where a National car has been entered in the annual Wilkes-Barre hill climb event on Decoration day. Charles Merz and John Aitken, who will have charge of the National entry, left Indianapolis for the seat of the contest last night. The Pennsylvania incline each

for their cars. An important feature of
the new burner is that it may readily
be adjusted so as to burn gasoline if for
any reason it is desired to use the latter
fuel.

National Car in Hill Climb.

A. C. Newby, president of the National
Motor Vehicle Company, left to-day for
Wilkes-Barre, Pa., where a National car
has been entered in the annual Wilkes-
Barre hill climb event on Decoration day.
Charles Merz and John Aitken, who will
have charge of the National entry, left
Indianapolis for the seat of the contest
last night. The Pennsylvania incline each
year is the scene of contests which at-
tract the attention of motorists every-
where and the local autoists hope that
the National will make a showing equally
as good as that made during the recent
big events in New York. The Wilkes-
Barre course presents many difficulties,
including a reverse curve 6,000 feet long,
with a grade from 10 to 22 per cent.

Premier Entries Announced.

In accordance with the company's pol-
icy of entering their product in all en-
durance contests of national importance,
the Premier Motor Manufacturing Com-
pany to-day sent out official notices of
the nomination of three Premier cars as
contestants in the 1909 Glidden tour, two
cars for the Glidden trophy and one for
the Hower trophy. In addition to these
entries a Premier car has been chosen as
the official car for Chairman Hower and
Charles J. Glidden.

For the last three years the Premier
has played an important part in these
tours, it being the pilot car in the 1907
tour as well as both pathfinder and pilot
car in the tour of 1908. The famous cen-
tury car was also in the 1908 tour, but as
a noncontestant, being used as a press
car.

Lytle Joins Apperson.

Herbert H. Lytle has become per-
manently identified with Apperson Bros.
Automobile Company, of Kokomo.

Lytle is conceded to be one of the best
automobile drivers and mechanics that
America has produced. It is fitting that
he should join the Apperson forces, as the
Apperson Brothers are among the oldest
builders of motor cars in America, and
as they have always constructed high
grade cars, having been constantly and
successfully engaged in this line since
1893.

Lytle will drive an Apperson car in all
of the great road races and hill climb-
ing events in this country during the
next year or more. When not engaged
in such work he will act as chief in-
specter of finished cars at the Apperson
factory, and will do some demonstrating
of new models for the benefit of Apper-
son dealers throughout the country. He
will drive a fifty horsepower Apperson in
the Cobe cup race, June 19.

"Auto Day" at Crawfordsville.

(Special to The Indianapolis News.)

CRAWFORDSVILLE, Ind., May 26.—
Crawfordsville's third annual "auto-
mobile day" will be observed Wednesday,
June 9. The affair this year promises to
bring the biggest display of autos ever
seen at one time in this city. Delegations
are expected from Kokomo, Indianapolis,
Frankfort, Lebanon, Lafayette and other
nearby towns. The auto day committee
will send a delegation to Kokomo's auto-
mobile show next Wednesday to boost the
Crawfordsville show. Liberal prizes will
be given. There will be prizes for the
best hill climbing machine, the egg race,
obstacle race, best decorated cars, best
lady driver, best gentleman driver, big-
gest car in parade, smallest car in
parade, car carrying most people, etc.
The premium list will amount to more
than \$100. Fred A. Turner is chairman of
the automobile committee.

Newport Plans Big Auto Meet.

(Special to The Indianapolis News.)

DANVILLE, Ill., May 26.—Interest of
the motorcycle and automobile enthusi-
asts of western Indiana and eastern Illi-
nois centers in the big hill climb events,
which will be held June 8 and 9 at New-
port, Ind., under the auspices of the Dan-
ville Motorcycle Club. No pains have
been spared by local people who are
managing the affair to make the
"climb" the greatest success of its kind
that has ever been pulled off in this sec-
tion of the country. The affair has been
extensively advertised by the management
at both the New York and Chicago auto
shows.

DE PAUW WINS MEET.

Methodists Vanquish Butler and
Franklin Teams.

DePauw University won over Butler
and Franklin on Irwin field yesterday aft-
ernoon in the first annual triangular field
and track meet between the three schools.

DePauw scored 59½ points. Butler was
second with 31 points and Franklin third
with 29½ points. The events were held on
a field soaked with rain. The track was
also in poor condition, which made it im-
possible to make any good showing in the
runs.

Roberts, of Butler, won individual hon-
ors, winning two firsts and a second, and
received the gold medal. Both the loving
cups offered the winning college and relay
teams were taken by DePauw. The
Methodists had an easy victory, winning
eight firsts, as compared to Butler's four
and Franklin's one. The rooters from
