order.

THE BIG FOUR, WHOSE WORD IS LAW DURING RACE

DAVID BEECROFT

The destinies of the five-hundred-mile
race are at present in the hands of the
four men, David Beecroft, representa-
tive of the American Automobile Assoc-
iation; A. R. Pardington, official referee
F. E. Edwards, chairman of the tech-
nical committee, and Charles P. Root,
official starter. The connection of the
speedway with the contest is merely that
of a disinterested spectator, outside of
the all important fact, of course, that

A. R. PARDINGTON

It is chairman of the box office receipts.
As far as the running of the race is
concerned, Beecroft, Pardington, Ed-
wards, and Root have the full say-so.
If anything should happen which in their
judgement should make it expedient to
call the race off they can even do that
if they want to, as evidenced by their
action in stopping the first three hundred
mile contest on the track, held in 1911,
when the Jackson was ahead.
The competency of these men has been

F. E. EDWARDS

fully established on a number of previous
occasions. With the exception of Root,
they have handled practically every meet
which has ever been held on the speed-
way. Root, though new here, is, never-
theless, a veteran at the game, having
been identified with the automobile in-
dustry since its inception. At present he
is editor of Motor Digest, a Chicago au-
tomobile publication. Beecroft, besides
being a member of the A. A. A. contest
board, is editor of Motor Age, Automot-
ible, and Commercial Vehicle, all motor-
ing journals. He is considered one of
the greatest authorities on the subject
of automobilism in the world. Pardington,
a wealthy sportsman, is noted for his
connection with racing events, at all of

CHARLES P. ROOT

which, including the Vanderbilt and
Grand Prize for years past he has been
one of the chief officials. Edwards has
been a fixture at the speedway for years.
His technical knowledge, kept alive by
the interest he takes in his automobile
college, a school for the education of
garage owners and repair men, at
Chicago, qualifies him better than
any other man for the office he
holds. His presence rounds out
one of the most competent and efficient
staffs of executives ever assembled for
the conducting of an event. With Ed-
wards, Pardington, Beecroft and Root in
charge, every spectator may feel safe
that the five-hundred-mile race will be
run off with a maximum of safety and
freedom from confusion of any sort.
