facts were last night given thorough con-
sideration, and provision made that a mes-
sage of appreciation for the efforts in
question be sent to their authors.

MOTORDOM'S LATEST

In foreign fields this week are Lon R. Smith, the Else-man, who is in New York, visiting the factory, and Owen Mothershead, of the Premier, who is in Ft. Wayne.

Visitors in Motor row yesterday were Bill Bailey, northern Indiana Firestone representa-
tive, who called on Bill Esterly, the local
agent, and C. M. Smith, Ohio branch man-
ager of the Diamond, who visited O. C. Rea-
vill.

Even Ralph de Palma, plucky as he is, has his little superstition. When he thus found out that the schedule mapped out by the fac-
tory would make him arrive in Indianapolis on May 12, he promptly kicked hard and long enough to change this date to May 13. He has no desire to carry any more tough luck on his shoulders than that which is naturally his, De Palma says.

A curio was received at the speedway of-
fice, yesterday, in the form of four paddock
box tickets, which had been submerged in
the Dayton flood. Practically all of the enamel
had been washed off of them, so that they
were barely distinguishable. They were sent
in by their owner, William H. Muzzy, be-
cause he feared that they might be refused
at the gate on the day of the race in their
present condition. Fresh tickets will be
forwarded him, with instructions to keep them
in a safe which will be protected from high
water.

J. Guy Monihan has missed his calling. The
lectures he gave yesterday afternoon and night
in connection with the moving pictures of the
Premier ocean-to-ocean tour, shown to demon-
strate the road conditions and scenery which
would be encountered by the Indiana-to-Pacific
tour, before the Hoosier Motor Club and the
I. A. M. A., respectively, conclusively proved
that as a circus barker he would have been a
joy and a delight incomparable. With melodi-
ous voice and infectious laughter, he carried
his audience through to the coast in such a
pleasant and charming manner that, when he
finished, there was not a man present who
had not made the secret resolve to accompany
the I-P tourists, if he could possibly get away.
