LAST AMERICAN BEATEN IN WORLD'S GOLF PLAY

ST. ANDREWS, Scotland, May 25.—The last American to be eliminated from the tournament for the world's amateur golf title today, Walter W. Henshaw Schmidt, of Worcester, Mass., was defeated by Harold Hilton, the English champion, one up in nineteen holes.

Schmidt, the twenty-three-year-old student who learned his golf while a cadet, has been the sensation of the championship tournament, owing to the remarkable strength and skill of his game. He met in the various rounds some of the leading golfers of the British Isles, but succeeded in fighting his way to the sixth round in which only eight players were left.

The contest was a keen one and

THE BIG FOUR, WHOSE WORD IS LAW DURING RACE

Ironically enough, the greater the annual Indianapolis five-hundred-mile race grows in importance as a sporting event, and it ranks today as the most stupendous contest ever staged in the history of the world—the more do its founders, Messrs. Fisher, Allison, Newby and Wheeler, owners of the speedway, derive their satisfaction out of the public tongue and joy which the pastime affords them, not time to reflect that if it had not been for the men in question, Indianapolis would have been a city of a few hundred inhabitants.

Hardly a thought goes to the men who made all the achievements of these popular heroes possible. To their credit it may be said that they have never viewed by the fact that they did purely for the love of the sport, think. Nevertheless, despite their desire for obscurity, the public tongue and joy which the pastime affords them, not time to reflect that if it had not been for the men in question, Indianapolis would have been a city of a few hundred inhabitants.

Hardly a thought goes to the men who made all the achievements of these popular heroes possible. To their credit it may be said that they have never viewed by the fact that they did purely for the love of the sport, think. Nevertheless, despite their desire for

WASHINGTON PARK CONTEST PLEASES MOTOR LOVERS

Teams known as the New Yorks and Chicago staged the first of a three game series of auto polo last night at Washington park and the Chicago team, after a hard fought (running) contest was victorious, 9 to 6. The sport suited the large crowd of motor speed fans that assembled at the park. Many thrilling plays were made by the machines, were not that some of the machines were wrecked was a mystery to the spectators. The Chicago team with Dunlap and Marshall, who were the stars of the exhibition, clearly exhibited the new sport. These two proved stars for their team and the last was conquered by the winners. Time was taken out several times to make minor repairs on the cars. The
