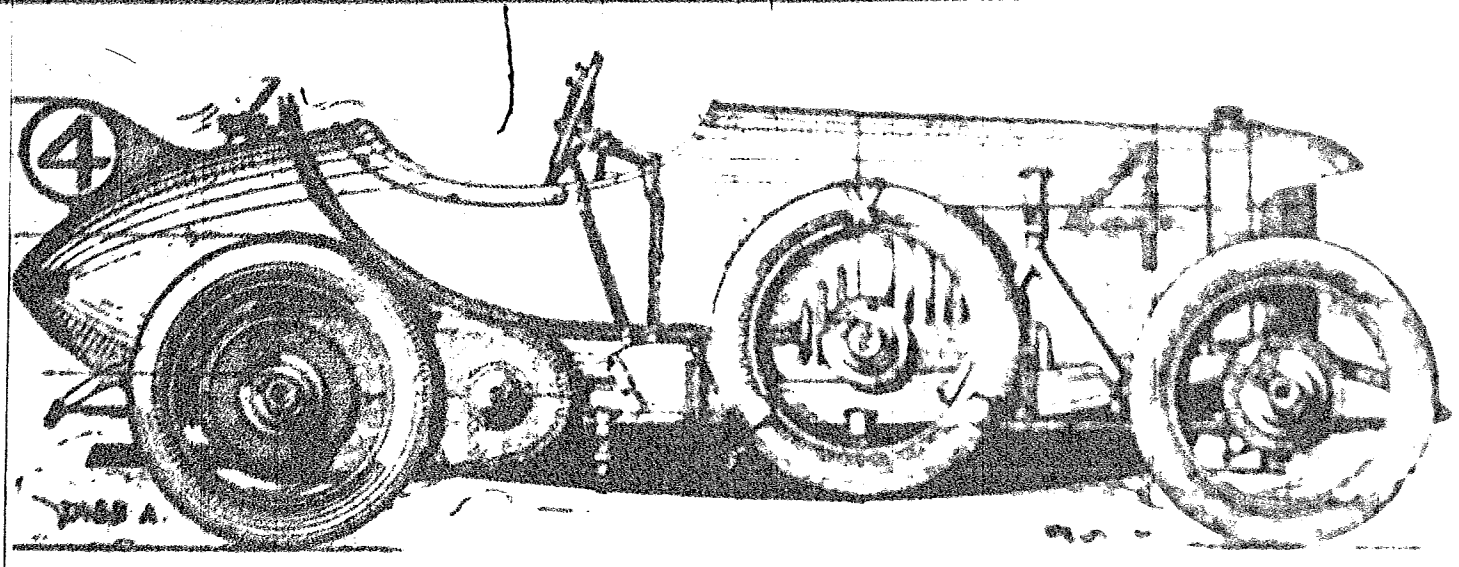
GLIMPSE OF ITALIAN RACER



The accompanying line drawing, furnished by the engineering department of the Isotta-Fraschini company, of Milan, Italy, conveys the first intimation of what the racing monsters entered by this concern in the next Indianapolis five-hundred-mile race look like. From their pointed prow and their rounded tail it will be seen that their general appearance is somewhat similar to that of the Blitzen Benz, with which Bob Burman established the world's mile straightaway record in Fl... To reduce wind resistance to a minimum is one idea. The cubic inch piston displacement of their motors is 444, with a bore and stroke of 120x160 millimeters. Their A. L. A. M. horse power rating is 86, but in actual practice they are expected to develop 75. A unique feature of their power plant is that they have ele... [illegible] ...
