LIESAW AND CAR ARRIVE FOR SPEEDWAY TRIALS

RAILBIRDS TURN OUT TO SEE SPEED KING BURMAN.

ITALIAN TEAM IS DELAYED

Billy Liesaw, with William F. Thompson's specialty built Anel, arrived in this city today from Battle Creek, Mich., to join the merry throng of speedsters which will soon be cavorting around the big brick oval. He says that his car is considerably faster than the Marquette-Buick in which he made such a creditable showing last year, and consequently expects to be well up in the running, provided bad luck does not overtake him.

Bob Burman, unable to get his car out on the track yesterday afternoon, due to some delay in the freight yards, says he will surely have his boat out today. A great flock of railbirds was expected to be on hand at the speedway this afternoon. Everybody is burning with curiosity to see Bob's new creation, which is said to resemble a Renault more than anything else, with its sloping hood and radiator incorporated with the dash.

During his time trials here, Burman will constantly be accompanied by his mechanician, Tony Jannett, an Italian, who first invaded this country in the company of Lancla, when the latter came over for the Vanderbilt. Both Burman and Jannett claim the Keeton to be one of the fastest cars ever built, stating that it developed 110 miles an hour on the

Bob Burman, unable to get his car out
on the track yesterday afternoon, due to
some delay in the freight yards, says he
will surely have his boat out today. A
great flock of railbirds was expected to
be on hand at the speedway this after-
noon. Everybody is burning with cu-
riosity to see Bob's new creation, which
is said to resemble a Renault more than
anything else, with its sloping hood and
radiator incorporated with the dash.

During his time trials here, Burman
will constantly be accompanied by his
mechanician, Tony Jannett, an Italian,
who first invaded this country in the
company of Lancia, when the latter came
over for the Vanderbilt. Both Burman
and Jannett claim the Keeton to be one
of the fastest cars ever built, stating
that it developed 110 miles an hour on the
straightaways in its tryouts. With this
much speed under its bonnet, it ought to
show its heels to not a few of the entries.

Italian Team Delayed.

Word has been received at the speed-
way offices that the Isottas would not ar-
rive in Indianapolis until May 20, the
delay being occasioned by difficulty in
shipping. The Italian team, therefore,
will have only ten days in which to get
ready. As Grant and Tetzlaff, of this
outfit, however, are wise to every angle
of the speedway, it is thought that this
will be ample. Trucco is expected quick-
ly to pick up the dope with their assist-
ance.

One of the most important officials of
the race called at the speedway offices
yesterday in the person of A. L. Parding-
ton, official referee of the contest. Pard-
ington merely dropped in for a few
minutes, leaving, last night, for New
York, via Detroit. He said he would re-
turn on or about May 25. A severe illness
has kept him in bed for some time. The
approach of the racing season, however,
served to get him up again. By the time
Decoration day rolls around, he says he
expects to be in the best of trim again.
