# SPEEDWAY RACE TO BE THE MOST SENSATIONAL

ONLY CREAM OF TALENT WILL BE IN AT FINISH.

## SPEED KING TO BARNSTORM

By far the best contest ever held on the speedway is predicted for the next five hundred-mile race by E. A. Morosa, former manager of the race course, at present business associate of Bob Burman, who, by virtue of the close connection he has had with the big oval since its construction, is in a position to speak with authority on the subject. The evenly matched field, as well as the rich prizes which have been hung up for the intermediate distances, will make the struggle the most sensational the world has ever seen, Morosa asserts. It will be a heart-breaking drive from the flash of the starter's gun to the checkered flag, he affirms. Only the cream of the talent, in his opinion, will last through to the finish.

Concerning Burman's chances he is naturally optimistic. Unlike last year, he says that Bob will be trained to the minute for the contest. It was a broken wheel which was primarily responsible for the 1912 mishap, he says. This, coupled with the fact that Burman had been working night and day to get his mount in shape, and had driven approximately four hundred miles when the accident happened, put him out of the running.

## SPEED KING TO BARNSTORM

By far the best contest ever held on the  
speedway is predicted for the next five  
hundred-mile race by E. A. Moross, for-  
mer manager of the race course, at pres-  
ent business associate of Bob Burman,  
who, by virtue of the close connection he  
has had with the big oval since its con-  
struction, is in a position to speak with  
authority on the subject. The evenly  
matched field, as well as the rich prizes  
which have been hung up for the inter-  
mediate distances, will make the strug-  
gle the most sensational the world has  
ever seen, Moross asserts. It will be a  
heart-breaking drive from the flash of  
the starter's gun to the checkered flag,  
he affirms. Only the cream of the tal-  
ent, in his opinion, will last through to  
the finish.

Concerning Burman's chances he is nat-  
urally optimistic. Unlike last year, he  
says that Bob will be trained to the min-  
ute for the contest. It was a broken  
wheel which was primarily responsible  
for the 1912 mishap, he says. This, cou-  
pled with the fact that Burman had been  
working night and day to get his mount  
in shape, and had driven approximately  
four hundred miles when the accident  
happened, put him out of the running
