

Why the Motor Buying Public Is Watching the Nyberg Entry

The Nyberg car is a six-cylinder car, made largely of stock parts, equipped with the same motor, transmission, carburetor, frame, axles, etc., that every Nyberg carries, except that the pistons have more clearance and a higher gear is used. Its performance on Decoration day is simply what you and the rest of the motor-buying public may expect in the way of long and satisfying service from "your motor car" if it is a Nyberg.

Nyberg

Models and Prices

Six-60	\$2,250	Four-42	\$1,750
Six-45	\$2,000	Four-40	\$1,650
		Four-37	\$1,295
