

BREAKS SEASON'S MARK IN SPEEDWAY TRIAL

**BURMAN SENDS RACER AROUND
COURSE IN 1:40.**

BEATS FRENCHMAN'S RECORD

Driving as if possessed, Bob Burman, the world's speed king, whirled his green Keeton around the speedway yesterday afternoon in 1:40, the best record yet to be made on the track this season. He clipped a full second off the fastest time of the Peugeot's, 1:41, made the first time they were out on the track. Bob's speed for the full distance was ninety miles an hour, flat. The authenticity of his record is unquestioned, as there were no less than five watches held on his attempt. It had been previously announced that Burman was to make the trial, hence the number of timers present. On his first time around he made the distance in 1:40 1/2, lowering the Frenchmen's mark by one-fifth of a second. This did not satisfy the speed king, however, so he took out after the record again, cutting it down the second time to 1:40.

The most remarkable fact of Burman's performance, however, was not the time he made, but the ease with which he did it. Unlike most of the other drivers he
