Mr. Barney Oldfield,

Dear Barney:

Enclosed herewith are some pictures of you and your "Green Dragon" car taken in Seattle when you were considerably younger than you are today. I thought you might like to have these pictures. Was this one of Henry Field's cars which you drove in the early days mentioned in a book recently published entitled "The American Procession"? Have you seen it? It contains a good picture of you and Henry Ford, but for some reason they omitted a picture of you on my bicycle.

Yours very truly,

R. D. Merrill
