TO-DAY'S GAMES

[By Roland L. Mellett.]

Dayton

COLUMBUS, O., June 28.—Daredevil Barney Oldfield, king of automobile race drivers and probably the best known pilot who ever turned a wheel, set a record for the 180-mile run between Indianapolis and Columbus yesterday that is not expected to be beaten soon under the same conditions. The trip was made in exactly six hours of running time, and in all seven hours were utilized. Accompanied by myself, Oldfield left the Claypool hotel in Indianapolis at noon and we arrived in this city at 7 p. m. At Richmond a stop of forty-five minutes was made for dinner and fifteen minutes were taken out at Dayton to replenish the supply of gasoline.

The previous best time between Indianapolis and Columbus is said to have been six hours and fifteen minutes, recently made by R. P. Boda, a local automobile dealer, who is well known in Indianapolis through theatrical connections. Boda's run was made over good roads from start to finish, however, while Oldfield was yesterday compelled to drive the final twenty-five miles at a comparative snail's pace for the reason that he ran into a heavy rainstorm. His car was not equipped with mud fenders, and even at the slowest pace possible mud was thrown in all directions.

Mud-Bespattered at Finish.

Mud-bespattered from head to foot we arrived at the Southern hotel, in this city, at 7 p. m. last evening after a thrilling ride. The trip was made in Oldfield's new racing car, the National Old Glory, with which he expects to shatter all records before the close of the present racing season. Portions of the journey were made at a rate of eighty miles an hour. Sixty miles an hour was common, but bad roads and the large number of small towns with large speed restrictions forced the average for the run down to thirty miles an hour.

Oldfield is a careful driver and one risks no more in riding eighty miles an hour with him than he would with a majority of drivers while going at a forty-mile-an-hour clip. Barney has a pair of keen eyes and it is only necessary for him to see to act. He slowed down for every bridge, but the moment he saw that the structure was safe he sent the big car away again at tremendous speed. He took no chances of clashing with the constabulary by driving at a prohibitive rate of speed.

CANTILLON MAY BE LEADER OF WHITE

NAMED TO SUCCEED SUL MANAGERIAL ROL

TO MAKE CHANGE I

CHICAGO, June 28.—Joe Cantillon, who is to manage the White Sox in 1912, is the latest report in baseball circles. The committee is made up of the owners as the proverbial oyster shell in discuss matters last spring side fanism was clamoring for a change in the managerial position. Cantillon's former partner, Joe...

with him than he would with a majority of drivers while going at a forty-mile-an-hour clip. Barney has a pair of keen eyes and it is only necessary for him to see to act. He slowed down for every bridge, but the moment he saw that the structure was safe he sent the big car away again at tremendous speed. He took no chances of clashing with the constabulary by driving at a prohibitive rate of speed through the small towns, as he believes an ounce of prevention is worth a pound of cure in cases of that kind. In his long racing career, during which he has toured the country back and forth and across several times, he has only been arrested twice for exceeding the speed limit.

Many Small Towns on Road.

The 180-mile road between Indianapolis and Columbus is lined with innumerable small towns, and they are brought close together when the road is covered as Oldfield traversed it yesterday. He was constantly compelled to slow down for the villages and cities. Indiana roads are much superior to those of Ohio. They are more level and are much better improved. The hilly Ohio roads are impeded by water steppes or high ridges built across them for the purpose of turning water into adjacent fields. Many autoists are of the opinion that they were really built by spiteful farmers for the purpose of making life miserable for them. Anyway, they do that very thing.

The National Old Glory created a big sensation all along the route. The noise from its engine could be heard a mile away and fences at farmhouses were lined by spectators as it passed. At such times Oldfield found much amusement in throwing open the exhaust pipes and the following reports resembled an Independence day celebration. Smoke and fire were emitted along with the deafening noise and many persons took to their heels in flight.

Old National Road Followed.

The old National road was followed all the way from Indianapolis. Twenty-five miles out of Columbus the first troubles of the journey were encountered. The Old Glory literally overtook a rainstorm that had been seen from a distance of many miles. The rain soon ceased, but the road was filled with water and was heavy with mud. The seats in the big six-cylinder 60-horse power racing car are only twenty inches above the ground, and as it has no mud fenders we were

Comiskey is much on the subject as the proverbial oyster. Mill to discuss matters last spring. side fandom was clamoring cessor to the lamented Joe Roman's bosom pals say 'succeed Billy Sullivan at the season.

In three years of earnest Washington Cantillon has failed to produce anything like a combination. But he hasn't proved in the role of tutor to row fresh from the bush league. In every sense of the word he has been identified with the club for many moons, and he hibernates right along the

Discord in the senatorial camp with a long enduring baffled Joe's every move to shape a team worthy of the efforts of other clubs. Just at present the Washington going at a winning clip and hard work of previous years is soon to bear fruit. As has been made in Washington that Cantillon is to be retained managerial to some time in Jiggs Donohue will probably helm.

Much gossip has surrounded the correspondence between Cantillon. The Sox owner is a Sullivan's work, for Billy has a trooper to keep the south the race. Cantillon has experience as manager of ball perhaps, a better judge of than the great backstop.

ening noise and many persons took to their heels in flight.

Old National Road Followed.

The old National road was followed all the way from Indianapolis. Twenty-five miles out of Columbus the first troubles of the journey were encountered. The Old Glory literally overtook a rainstorm that had been seen from a distance of many miles. The rain soon ceased, but the road was filled with water and was heavy with mud. The seats in the big six-cylinder 60-horse power racing car are only twenty inches above the ground, and as it has no mud fenders we were quickly covered with mud and soaked with water. The entrance into Columbus attracted a great deal of attention, and Oldfield made no effort to decrease the noise made by the engine of his car. Barney has been creating sensations so long that he is unhappy unless the public gaze is turned in his direction.

The return trip was to be made to Indianapolis this afternoon and Oldfield expected to lower the record established yesterday, provided the weather conditions were more favorable. However, it rained hard here all night and little, if any improvement, was regarded as probable.

Incidentally the Old Glory used only ten gallons of gasoline yesterday, which Oldfield believes is another record. The equipment carried consisted of an extra set of tires, a monkey wrench and a pair of pliers. The run was made without accident or unusual incident in any way. The Old Glory is an unusually smooth running car and no ill effects were felt from the strenuous trip.

Oldfield will return to Columbus and enter his National Old Glory in the big automobile races to be held in this city Friday and Saturday, in which he will compete against the Buick, Chalmers-Detroit and other cars that won honors in the Cobe trophy Crown Point-Lowell races a few days ago. Oldfield is a great favorite in Columbus. Four years ago he drove the first ten miles ever negotiated in less than ten minutes on a circular track on the oval in this city and the mark he established at that time still stands.

PAPE GOES TO BOSTON.

Star Milwaukee Twirler Will Be in New Berth Wednesday.

State Golf Association for Event.

[Special to The Indianapolis-] ANDERSON, Ind., June 25. A five-committee of the Indiana Golf Association met at the Anderson Club yesterday and arranged details for the annual tournament. It was decided that the tournament for men on the Marion Country Club at Anderson Country Club was the place for the annual tournament.

In the men's tournament from each club will begin August 2 to qualify for the tournament and committee pointed yesterday to purchase to attend to other details of the tournament. The meeting presided over by Horace C. St. city, president of the Indiana Golf Association. He is a former member of the Anderson Country Club.

BRONSON GETS I

Honors Were Even in with Redmond

[Special to The Indianapolis-] NEW ORLEANS, June 1. Bronson, of Indianapolis, fought round three with Jack Paul. Bronson was picked before the fight began, but outwitted his opponent and not put him out. Bronson great gameness and took a punishment. He stood Bronson fully the full route, the in failing to score a single Bronson forced the fight the way through the ten rounds, the more clever of the most came strong at the end to be just as strong when the fight began. Bronson an injury to an old wound right eye, which pained
