

The Leading
Lubricant Everywhere

Is **Polarine**
FRICTION REDUCING MOTOR OIL

Maintains the correct lubricating body at any motor speed or temperature.

High speed or low, in summer or winter, Polarine flows freely and evenly to every friction point. It is manufactured in the world's largest plant of its kind representing millions of dollars invested and equipped with the latest improvements for the production of a perfect motor oil.

Here the perfecting of Polarine is begun where other oils are deemed finished. When Polarine is finished, it is ready for lubricating any make of motor car, motor truck or motor boat.

It is not possible with present knowledge to make a better motor oil. Sold everywhere, so you can **get it** anywhere—at home or on tour.

ment. Everything about it will be modern and entirely fireproof. Following the ceremonies, the day was given over to a general holiday and jubilee occasion. The three bands gave a free concert, both afternoon and evening. There was a fireworks display at night, and the town was a mass of happy, joyous people. It was one of Danville's biggest days, and will be held for many years.

**LATEST NEWS FROM
ALL OVER INDIANA**

LAWRENCEBURG—Kotley Carter, while in a 10-year-old boy, has been bound over in a dream, confessed to stealing a horse in the sum of \$5,000. He is confined in a military cell to keep him away from other prisoners.
