BEASLEY INTRODUCES EXPERT

Dr. Jameson of Indianapolis Says Man Who Killed Wife Is of Unsound Mind.

ELICOMBVILLE, Ind., Dec. 26.—Expert testimony was introduced into the Beasley trial for the first time at today's proceedings. Dr. Henry Jameson of the Indiana Medical College of Indianapolis was called by the defense late in the afternoon and kept the stand until about 6 o'clock. The expert's testimony was heard by him and Beasley's family. After more than two hours' testimony, it is stated that the doctor's opinion was that the defendant was of unsound mind at the time of the killing.

For the second time fire and explosion were kept in check on this street today. Firemen worked in the fire of great danger because of frequent explosions.

Dr. Jameson of Indianapolis Says Man Who Killed Wife Is of Unsound Mind.

BLOOMFIELD, Ind., Dec. 29.—Expert testimony was introduced into the Beasley trial for the first time at today's proceedings. Dr. Henry Jameson of the Indiana Medical College of Indianapolis was called by the defense late in the afternoon and kept the stand until court was adjourned at 6 o'clock. The hypothetical question was read to him by John E. Lamb. After more than twenty minutes reading he stated that the man who killed his wife was of unsound mind.

For the second time fire and explosion wrecked the plant of the Prest-O-Lite Company at 211 South East street yesterday. The firemen worked in the face of great danger because of frequent explosions.
