WINNER OF MANY BIG RACES

[By Carburer.]

George Robertson, of New York, one of the most famous race drivers in the world and winner of many big races, will next season race a Parry car, made at the factory of the Parry Auto Company in this city. He will also act as the New York agent for the Parry car. The company has just closed negotiations with Robertson, and the fact that he has been obtained as a race pilot insures that the Parry car will take high rank next year. Robertson is well established in the east, and he is expected to be successful as the Parry New York agent.

Robertson holds the American speedway records for twenty, fifty, one hundred and 150 miles, established with a 60-horse power flat at Atlanta. In 1909 he won the Vanderbilt cup race, and he also has many other big victories to his credit. He is rated as the champion auto race driver of 1909.
